Understanding this document

In addition to the detailed indicator text and selection options, in each module of the PRI Reporting Framework you can find information that will help you identify which indicators are relevant to your organisation.

Top bar

Key information about each indicator is highlighted in the top bar, including the indicator status (mandatory or voluntary), the purpose of the indicator and which PRI Principle it relates to.

xxx 01	Indicator status <i>MANDATORY</i>	Purpose <i>CORE ASSESSED</i>	Principle <i>PRI 2</i>
--------	--------------------------------------	---------------------------------	---------------------------

Indicator status

<i>MANDATORY</i>	Mandatory indicators reflect core practices. These responses will be made public and must be completed to submit the framework.
<i>MANDATORY TO REPORT VOLUNTARY TO DISCLOSE</i>	Some indicators are mandatory to complete, but voluntary to disclose. These indicators may determine which subsequent indicators are applicable or are used for peering, but they may also contain commercially sensitive information.
<i>VOLUNTARY</i>	Voluntary indicators concern alternative or advanced practices. These indicators are voluntary to report and disclose.

Purpose

Gateway		The responses to this indicator 'unlock' other indicators within a module if they are relevant to your organisation. Please refer to the logic box for more information.
Peering		These indicators are used to determine your peer groups for assessment purposes.
Core assessed		These indicators form the core of the assessment and represent the majority of your final assessment score.
Additional assessed		These indicators represent more advanced or alternative practices and contribute to a smaller part of your score.
Descriptive		These are open-ended narrative indicators, allowing you to describe your activities.

Underneath the indicator

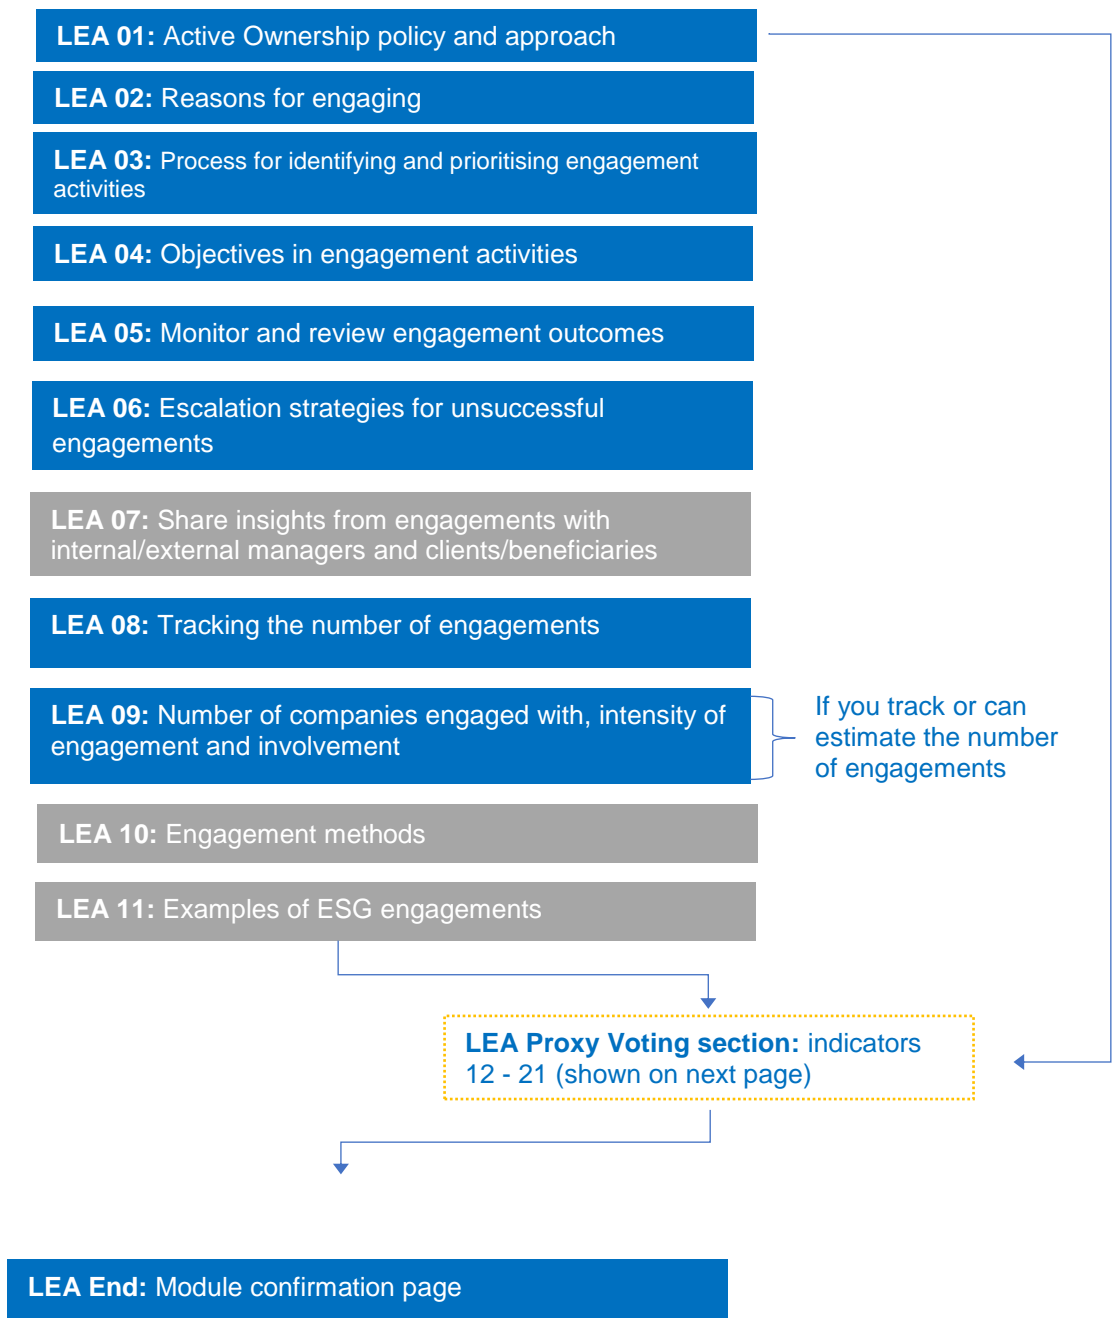

Underneath the indicator, you can find explanatory notes and definitions which include important information on interpreting and completing the indicators. Read the logic box to make sure an indicator is applicable to you.

xxx 01	EXPLANATORY NOTES
xxx 01.1	This provides guidance about how to interpret the sub-indicators, including examples of what can be reported.
xxx 01.2	
LOGIC	
xxx 01	This explains when this indicator is applicable and/or if it has an impact on subsequent indicators. If there is no logic box, the indicator is always applicable and does not affect other indicators.

Preface

The information reported in this module will enable your stakeholders to understand how your organisation carries out the following activities in relation to listed equities: (a) your own engagement activities (e.g., engagement conducted by internal staff, both collaboratively and individually) or any engagement activities undertaken on your behalf by service providers; and (b) (proxy) voting and shareholder resolutions decided upon by you or on your behalf by service providers.

This module does not cover engagement and/or (proxy) voting activities carried out on your behalf by external investment managers. These activities are covered in the module on external managers entitled *Indirect — Manager Selection, Appointment and Monitoring (SAM)*.

Note: This module has two different sections.

LEA 01	EXPLANATORY NOTES
LEA 01	<p>This indicator is aligned with the ICGN Global Stewardship Principles.</p> <p>The indicator [LEA 01.2] is aligned with the OECD Responsible Business Conduct for Institutional Investors recommendations.</p>
LEA 01.1	<p>The policy can be a component of or separate to your overall responsible investment policy.</p> <p>Investors may define their organisation’s active ownership policy directly in their investment policy. By doing so, they can signal that active ownership is not a standalone practice but a means to improve decision making and execute investment objectives.</p>
LEA 01.5	<p>Where an investor decides to outsource active ownership activities to specialised service providers, the active ownership policy can contain less detail, but it is still important to outline the value of engagement and voting for the organisation, and to guide the relationship with these selected third parties.</p> <p>For more information about the options identified, refer to the PRI’s ‘A Practical Guide to Active Ownership in Listed Equity’.</p>
LEA 01.6	<p>This may include a discussion of:</p> <ul style="list-style-type: none"> • how often your engagement policy is reviewed, and the level of internal endorsement within your organisation’s governance structure for responsible investment (e.g., board, trustees, etc.); • your organisation’s objectives in undertaking engagement activities, including whether these activities are informed by and support investment decision making; • your organisation’s approach to avoiding, identifying and managing conflicts of interest, including the process to communicate possible conflicts of interest, and remedies to mitigate them, to clients or beneficiaries;

	<ul style="list-style-type: none"> • your organisation’s procedures for monitoring ESG practices and performance by investee companies to identify cases for engagement; • whether engagement is conducted only with companies that are held in your portfolios, or also with companies that are not; • whether your engagements are primarily proactive to ensure that ESG issues are well managed in a preventive manner, or reactive to address issues that may have already occurred; • who carries out the engagement (e.g., specialised in-house ESG teams, portfolio managers, or both, etc.), and how you ensure your organisation has the appropriate capacity and experience for engagement activities (e.g., human resources, time and training); • whom you seek to engage with within companies (e.g., board representatives, chairman, CEO, CSR/IR managers); • whether your organisation typically engages with companies on specific ESG issues (e.g., emissions, climate change or other specific ESG issues); • your organisation’s approach in case of unsuccessful engagement (e.g., public statement, overweight/underweight, filing resolutions, divestment, litigation); • your organisation’s tracking of engagement meetings and interactions, and its commitment to transparency towards clients/beneficiaries and the public.

LEA 02	EXPLANATORY NOTES
LEA 02	The indicators [LEA 02.1] and [LEA 2.3] are aligned with the OECD Responsible Business Conduct for Institutional Investors recommendations, and [LEA 02.1] and [LEA 02.2] are ICGN Global Stewardship Principles.
LEA 02.1	Option “ To influence corporate practice (or identify the need to influence it) on ESG issues. ” Option “ To encourage improved/increased ESG disclosure. ” These are engagements that seek better ESG-related disclosure and transparency. These interactions relate to Principle 2 and Principle 3 . Option “ To gain an understanding of ESG strategy and/or management. ” This can be selected when engagement occurs with the direct or indirect intention of gaining a better understanding/knowledge of ESG issues in order to assist in investment decision making. Principle 5 of the PRI, together with several voluntary codes and guidelines (including existing national stewardship codes, the ICGN stewardship principles and the OECD paper of Responsible Business Conduct for Institutional Investors), encourages investors to collaborate with peers to engage with investee companies. Collaborative engagements allow individual investors to share information, time and resources, while communicating with portfolio companies in a unified voice on areas of common concern.
LEA 02.2	This indicator refers to engagement in relation to your organisation’s internally and externally managed assets that is conducted by service providers. Any engagements carried out by your external investment managers are covered in the <i>Indirect Manager Selection, Appointment and Monitoring (SAM)</i> module.
LEA 02.4	Your response may include a discussion of: <ul style="list-style-type: none"> • why your organisation does not engage via individual, collective and/or service providers; • your role in setting engagement/active ownership objectives with your service providers; • how you monitor/oversee service provider activities; • any joint engagement conducted with the service provider (e.g. participating in company meetings)
LOGIC	
LEA 02	Your responses here are gateways for further sections in this module. Selecting the following options in [LEA 02.1] will trigger the following indicators:

	<ul style="list-style-type: none"> • selecting Individual/ Internal staff engagement will trigger the Individual/Internal staff engagement options in [LEA 4 – 6]; • selecting Collaborative engagement will trigger the collaborative engagement options in [LEA 4 – 6]; • selecting Service Provider engagement will trigger the service provider engagement options in [LEA 4 – 6].] <p>In addition, if engagements that are reported for the reasons given above are conducted by internal staff, service providers and/or collaboratively, indicators [LEA 08 - 11] will be applicable.</p> <p>[LEA 02.2] is applicable if your organisation engages via service providers in [LEA 02.1].</p> <p>[LEA 02.3] is applicable if “Yes” is selected in [LEA 02.2].</p>

ASSESSMENT

LEA 02	<p>Your aggregate LEA score will be based on your ‘primary’ method of engagement (directly by internal staff, in collaboration with other investors, or through commercial service providers). Whether your method is ‘primary’ or not will be determined by your responses to LEA 09.1–09.3, the number of engagements combined with how comprehensive they were, and the level of your involvement. All reported assessed indicators will be included in your module scorecard. The PRI does not suggest or prefer a particular engagement method. Signatories can score the top grade by using any one or a combination of engagement methods.</p> <p>Maximum score: Three ★</p> <p>The assessment of this indicator is based on your responses to [02.2] and [02.3].</p>

Engagement categories based on who conducts them

There are many different categories of engagement. Investors engage with companies directly in their own name, in collaboration with other investors (independently or through investor networks/membership organisations), and through commercial service providers. The distinctions between the various types of engagement are not always clear-cut. Please use the definitions below and your best professional judgement when deciding how to classify your organisation's engagements. Review the process indicators for each category, and determine which indicator(s) best fit your organisation's business model.

Please contact the Reporting and Assessment team if you require additional clarification.

<p>Individual/Internal staff engagement</p>	<p>The defining characteristics of an individual/internal staff engagement are that:</p> <ul style="list-style-type: none"> • it is carried out by your internal staff only, with no involvement or support from other investors, investor networks or service providers; and • it is conducted in the name of your organisation (i.e., the companies with which you engage can identify your organisation individually), and you do not act on behalf of other organisations. <p>Being a signatory to CDP should not be counted as an engagement, but rather reported as part of the way you support responsible investment in Strategy & Governance SG08. However, if your organisation engages in its own name with companies on their carbon emissions, water or forest footprint disclosures as a follow-up to CDP disclosure requests and/or as part of CDP's Carbon Action or Aiming for A initiatives, you should report these engagements as individual/internal staff engagements.</p>
<p>Collaborative engagement</p>	<p>Collaborative engagement is an engagement that an investor conducts jointly with other investors. This includes:</p> <ul style="list-style-type: none"> • groups of investors working together without the involvement of a formal investor network or other membership organisation(s); • groups of investors working together within a formal investor network or other membership organisation, with some level of support, but with individual members of the collaboration having responsibility for most of the engagement activity; and • collaborative engagement coordinated and facilitated by a formal investor network (e.g., PRI-coordinated investors' coalitions). <p>Being a signatory to CDP should not be counted as an engagement, but rather reported as part of the way you support responsible investment in Strategy & Governance SG08. However, if your organisation collaborates with a group of investors to engage with companies on their carbon emissions, water or forest footprint disclosures as a follow-up to CDP disclosure requests, you should report these engagements as collaborative engagements.</p>
<p>Service-provider engagement</p>	<p>Service-provider engagements include engagements conducted via:</p> <ul style="list-style-type: none"> • commercial parties that provide stand-alone engagement services without managing their clients' underlying assets; and • investor organisations that conduct engagement on their members' behalf and have an explicit mandate from their members to represent them. <p>These include engagements conducted entirely on an outsourced basis, as well as those facilitated by the service provider with some involvement of the investor's own staff.</p>

LEA 09	EXPLANATORY NOTES
LEA 09	The indicator [LEA 09.1] is aligned with the ICGN Global Stewardship Principles.
LEA 09.1	<p>This sub-indicator allows you to report the number and comprehensiveness of your engagements in the reporting year. Do not list engagement activities in which you did not have any interactions with the company in the reporting year.</p> <p><i>Number of companies engaged</i></p> <p>Please record the total number of companies (of which you have holdings) which you engaged in the reporting year, irrespective of the number of issues on which you engaged.</p> <p><i>Engagements</i></p> <p>Please record the proportion of the assets covered by the engagements out of your total listed equities holdings.</p> <p><i>Avoid double counting</i></p> <p>Make sure you list your engagements only in one of the three categories, based on the definitions provided. Do not count the same case of engagement with a company in more than one category. If you contract more than one service provider to conduct engagements with the same companies for the same issues, do not double count the number of companies engaged on your behalf (although a +/- 5% estimation of the overlap may be applied).</p> <p><i>Do not include the following as engagements here:</i></p> <ul style="list-style-type: none"> • standard questionnaires sent to companies for the purpose of information gathering only (e.g., on products or ESG policies and performance for screening purposes); • attendance without interactions/discussion at a company presentation, AGM or other company meeting; • interactions intended to influence public policy or bodies that define industry best practices (these fall under the SGSG module); • CDP's disclosure requests on GHG emissions, water and forests (these are not captured as engagements but are reported in SG).SG You can, however, include your engagement with CDP engagement programmes, such as Carbon Action or Aiming for A; and/or • press releases or investor statements which an investor may publish in relation to an engagement with a company.
LEA 09.2	<p>This indicator attempts to provide an understanding of the degree of comprehensiveness of an engagement. A greater number of interactions is considered to be indicative of a higher quality of engagement. The PRI recognises that this measurement alone cannot fully assess the quality of investors' engagements. Each organisation's context is different, and the LEA module therefore provides multiple indicator questions where signatories can detail their full approach.</p> <p>An interaction can be one of the following: letters and/or emails to companies, meetings and/or calls with the company's board/senior management, or with CSR, IR, or other management, visits to operations, visits to supplier(s) in the company's supply chain, etc.</p>
LEA 09.3	This indicator attempts to provide an understanding of the level of involvement you had in your collaborative engagements. If you were highly involved (, for example by, drafting letters, emails, other correspondence, attending meetings, directly contacting the company(ies)

	concerned, representing the collaborative engagement etc.), it would be considered that you took a leading role.										
LEA 09.4	<p>Partial involvement in your service-provider engagements can include:</p> <ul style="list-style-type: none"> - defining the ESG issues to be raised, and the objectives to be achieved, with specific companies; - drafting joint letters to specific companies; - attending joint meetings and following-up on specific companies. 										
LOGIC											
LEA 09	<p>[LEA 09] will be applicable if you reported that you track the number of your engagement activities in [LEA 08.1] (any of individual/internal, collaborative or service provider).</p> <p>Where “We did not complete any engagements in the reporting year” for an engagement type, the following indicators will not be relevant;</p> <ul style="list-style-type: none"> • Individual / Internal Staff Engagements: [LEA 9.2] will be applicable • Collaborative Engagements: [LEA 09.2] and [LEA 09.3] will be applicable • Service Provider Engagements: [LEA 09.2] and [LEA 09.4] will be applicable. 										
ASSESSMENT											
LEA 09	<p>Maximum score: Six ★</p> <p>The assessment of this indicator is based on your responses to [09.1] and [09.3 – 09.4]. It will be possible to receive a full score regardless of who conducts the engagements.</p> <p>The assessment takes into account the number of engagements you conducted [09.1] and the level of involvement by the signatory [09.3 and 09.4].</p>										
	Indicator scoring methodology										
	<p>Algorithm</p> <p>X = Number of companies x Level of involvement multiplier</p>										
	Multiplier table										
	<table border="1"> <thead> <tr> <th></th> <th><i>None</i></th> <th><10%</th> <th>10-50%</th> <th>>50%</th> </tr> </thead> <tbody> <tr> <td>Leading Role / High involvement (LEA 09.3 and/or/09.4)</td> <td>-</td> <td>x 1</td> <td>x 1.5</td> <td>x 2</td> </tr> </tbody> </table>		<i>None</i>	<10%	10-50%	>50%	Leading Role / High involvement (LEA 09.3 and/or/09.4)	-	x 1	x 1.5	x 2
		<i>None</i>	<10%	10-50%	>50%						
Leading Role / High involvement (LEA 09.3 and/or/09.4)	-	x 1	x 1.5	x 2							
<p>For individual engagements, the level of involvement is automatically considered to be 100%, and therefore, the multiplier applied is ‘2’.</p> <p>The resulting figure is then converted to stars taking into consideration the AUM size (USD) using a scoring matrix. Please note that the final scoring matrix will be finalised at the end of the reporting cycle.</p>
