

# STRENGTHENING ACCOUNTABILITY RECOGNISING DIVERSITY

PRI FORMAL CONSULTATION

# PRI's 2015-18 Strategic Plan

# Accountability & Diversity

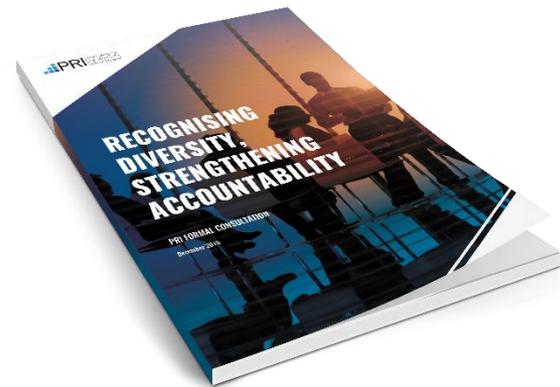

Consultation period: December 2015 – March 2016

## Objectives

- Determine how the PRI can better recognise diversity across the signatory base.
- Identify additional accountability mechanisms that could be introduced to encourage those making little or no progress to do more.

## Outcomes

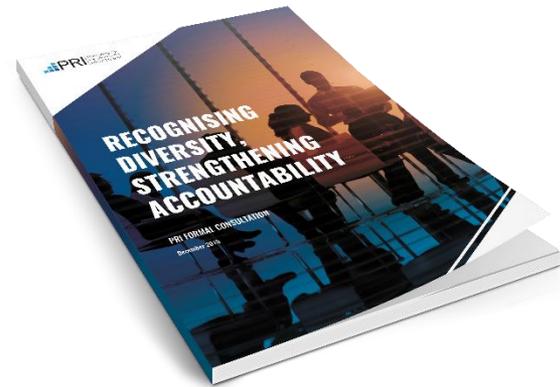

- The PRI better differentiates between signatories based on the breadth and depth of their responsible investment activity, and their level of progress over time.
- Signatories undertaking advanced practices are publicly recognised and market forces reward each signatory's relative commitment and performance.
- The PRI continues to grow and welcomes signatories in new and emerging markets.

# Accountability & Diversity

## Four proposed initiatives

- While the consultation paper presents several options, the **PRI has no fixed views** at this stage about which one/s to take forward.
- Signatories are encouraged to suggest additional or modified initiatives for consideration.
- The options are not mutually exclusive; some or all of them may be implemented, individually or in combination.

# Strengthening Accountability

Two possible initiatives

**PRINCIPLE 6: We will each report on our activities and progress towards implementing the Principles.**

1. PRI delists signatories that fail to make meaningful progress
2. PRI delists signatories whose actions undermine their commitment to the Principles

## Nearly 70%

of signatories want PRI to delist organisations who make no progress and believe we should have criteria in place to do so

# Recognising Diversity

Two possible initiatives

1. PRI publishes signatory assessment reports/scores or places signatories in public 'tiers'
2. PRI extends the grace period for new signatories before they must report publicly
