RI TRANSPARENCY REPORT

2014/15

Aberdeen Asset Management

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

LEI 03	Mandatory	Gateway/Core Assessed	PRI 1
--------	-----------	-----------------------	-------

LEI 03.1

Indicate (1) which ESG incorporation strategy and/or combination of strategies you apply to your actively managed listed equities and (2) the breakdown of your actively managed listed equities by strategy or combination of strategies.

ESG incorporation strategy (select all that apply)

--	--

- Thematic + integration strategies
- Screening + thematic strategies
- All three strategies combined
- No incorporation strategies applied

Total actively managed listed equities

100%

LEI 03.2

Describe your primary reasons for choosing a particular ESG incorporation strategy.

AAM's equity investment process was developed in 2002 by Hugh Young and rolled out to each of our 5 regional (equity desks.) Corporate governance has always been a part of the quality rating for companies. A potential investment must pass the quality and value (price) hurdles before being included in our funds. For a small percentage of our AUM for equities, we provide a screening service for SRI clients. These criteria are established with the client. The investment process for these funds is the same as it is for our mainstream funds (which integrates corporate governance issues in the investment process) and adds a layer of SRI screening.

(A) Implementation: Screening

LEI 06	Mandatory	Descriptive	PRI 1
--------	-----------	-------------	-------

LEI 06.1

Indicate and describe the type of screening you apply to your internally managed active listed equities.

Type of screening

- Negative/exclusionary screening

Screened by

- Product
- Activity
- Sector
- Country/geographic region
- Environmental and social practices and performance
- Corporate governance

Description

We manage a range of SRI type funds which all have different screens for ethical criteria. We apply these to our investible universe. We also manage mainstream portfolios for which our RI equities team assesses the ESG risks, post-investment.

- Positive/best-in-class screening
- Norms-based screening

LEI 06.2

Describe how the screening criteria are established, how often the criteria are reviewed and how you notify clients and/or beneficiaries when changes are made.

The vast majority of our equity funds are not SRI specific funds. These use negative screening to avoid certain activities in the market. The criteria for these funds are reviewed once a year and we notify clients in writing when any changes are made.

LEI 07**Mandatory****Core Assessed****PRI 1****LEI 07.1**

Indicate which processes your organisation uses to ensure that screening is based on robust analysis.

- Comprehensive ESG research is undertaken or sourced to determine companies' activities and products.
- Companies are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- External research and data used to identify companies to be excluded/included is subject to internal audit by ESG/RI staff, the internal audit function or similar
- Company ESG information/ratings are updated regularly to ensure that portfolio holdings comply with fund policies
- A committee or body with representatives independent of the individuals who conduct company research reviews some or all screening decisions
- A periodic review of the quality of the research undertaken or provided is carried out
- Other, specify
- None of the above

(C) Implementation: Integration of ESG issues

LEI 11	Mandatory	Core Assessed	PRI 1

Process for engagements run internally

LEA 03	Mandatory	Core Assessed	PRI 2
--------	-----------	---------------	-------

LEA 03.1

Indicate whether your organisation has a formal process for identifying and prioritising engagement activities carried out by internal staff.

 Yes**LEA 03.2**

Describe how you identify and prioritise engagements.

We engage all our equity investments that have passed our hurdle for investment, namely Quality and Value (or Price.) Our equity teams around the world research and analyse companies within their regions and decide on quality (including corporate governance) and value grounds which groups to invest in. The Responsible Investing - Equities team then researches and engages these companies on ESG risks / issues.
