RI TRANSPARENCY REPORT

2014/15

Auda International L.P.

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

---------	---

Auda has set up an internal "ESG project team," headed by Auda's European Head of Private Equity and consisting of various other team members, including Auda's Chief Compliance Officer, members of the global investment team and the Solutions team. The ESG team is project oriented with different members being responsible for the development, implementation and monitoring of ESG policies within the Auda organization and the investment process. The ESG team also works with clients, limited partners (LPs) and general partners (GPs) to facilitate communication about ESG concerns and help implement reasonable standards for all involved to follow.

Auda has developed several tools, such as a GP ESG questionnaire and ranking system, to analyze the ESG policies of the GPs during the investment due diligence process. The result of this analysis is included in the written Investment Proposals that are submitted to the Investment Committee for approval. The existence and robustness of a GP's ESG policy is an important factor in the evaluation of the GP and the overall investment. In addition, Auda hopes to introduce annual reviews of GP ESG policies to evaluate any changes or improvements in their methods. This information will serve to help us shape our own practices as we implement the principles, and also provide useful insight into the portfolio company ESG practices.

In addition to being a signatory with the UNPRI, Auda is also committed to the United Nations Environment Programme Finance Initiative (UNEP FI) and the United Nations Global Compact (UN Global Compact), and is a generous supporter of NESsT. On an ongoing basis, the ESG team members attend various conferences and symposia to learn more about how fund managers can effectively and innovatively respond to the ESG concerns of LPs. Such events include conferences hosted by the European Private Equity and Venture Capital Association (EVCA), the UN Global Impact, the PRI Academic Network and the PRI in Person. The ESG team is also encouraged to participate in webinars and other online learning initiatives.

As a fund-of-funds manager, Auda believes that GPs of the target funds can enhance long-term performance of investments through an understanding of ESG issues and the integration of ESG standards into the value creation process. Although Auda generally has limited engagement with the underlying portfolio companies, we see it as our key responsibility to collaborate with our GPs to encourage ESG best practices in our underlying portfolio companies. To that end, Auda will proactively monitor the progression of ESG policies across the industry and continue to engage in regular dialogue with our peers, GPs and LPs.

OA 04.1 Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

- Yes

OA 04.2

Describe your policy on managing potential conflicts of interest in the investment process.
[Optional]

Because Auda is dedicated solely to investing in alternative investment strategies, we are generally able to avoid conflicts of interest inherent in firms that operate several financial services business lines. However, Auda does still confront potential conflicts of interest which may impact investors in its funds. Such conflicts may arise from our management of Auda-sponsored or advised funds from certain risks related to performance allocations (i.e., carried interest); and from the presence of a diverse limited partner group in the fund. While Auda may not have a blanket conflicts of interest policy in the investment process, each fund's private placement memorandum contains detailed information about these and other potential conflicts of interest. Further, Auda's internal Compliance Manual and Code of Ethics, govern the activities of the firm's employees and treatment of clients, including the management of any conflicts of interest.
