RI TRANSPARENCY REPORT

2014/15

Cantillon Capital Management

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

There is an annual review of the portfolio to identify any companies where there is strong evidence of repeated and systematic breaches of international standards with regards to ESG issues. Once a year all the positions in the portfolio are assessed to determine the companies' adherence to international standards in the areas of human rights, labor rights, environment and anti-corruption / governance. Since the UN Global Compact is one of the most widely accepted standards of corporate behavior it forms the foundation for this assessment. For any companies within the portfolio where there is evidence of repeated, significant and systematic violations of these international standards and principles we will address these issues during our next meeting with the company. The last review of the portfolio was conducted in October 2014

Cantillon Capital Management's investment philosophy is predicated on finding high quality companies capable of generating strong sustainable returns (e.g. ROE, ROIC, ROA). By virtue of our investment philosophy and our pursuit of companies with sustainable competitive advantages our portfolio tends to be populated with companies that have good quality management and demonstrate sound corporate governance, environmental and social practices. However, we are cognizant that environmental, social and governance (ESG) factors can impact a company's financial performance, their long term returns and hence the fair value of stocks. As a result we endeavor to integrate ESG issues into our investment analysis and decision-making process.

Process

LEA 17	Mandatory	Descriptive	PRI 2
--------	-----------	-------------	-------

LEA 17.1	Indicate how you typically make your (proxy) voting decisions and what this approach is based on.
----------	---

Approach

- We use our own research or voting team and make our own voting decisions without the use of service providers.
- We hire service provider(s) which make voting recommendations or provide research that we use to inform our voting decisions.

Based primarily on

- the service provider voting policy signed off by us
- our own voting policy
- our clients requests or policy
- other, explain

Each analyst is responsible for reviewing the relevant ballots, formulating their own assessment of the situation and voting in an appropriate manner

- We hire service provider(s) which make voting decisions on our behalf, except for some pre-defined scenarios for which we review and make voting decisions.
- We hire service provider(s) which make voting decisions on our behalf.

LEA 17.2	Additional information.[Optional]
----------	-----------------------------------

In order to facilitate the proxy voting process we have appointed Institutional Shareholder Services (ISS), an external service provider and a subsidiary of MSCI Inc. ISS notifies us of upcoming company meetings and provides specific research on the tabled resolutions. ISS follows a "shareholder value" philosophy that analyzes the corporate governance implications of each proxy vote. However, ISS's recommendation is not automatically followed. Each analyst at Cantillon Capital Management is responsible for reviewing the ballot and formulating their own, independent assessment of the situation and voting in a manner that they feel best serves shareholders and investors. In situations where we are voting against ISS's recommendation the analyst writes a short note explaining the rationale for their decision. By reviewing every vote, analysts are able to stay abreast of any issues arising and can positively impact the strategy and direction of the companies in which we invest.
