RI TRANSPARENCY REPORT

2014/15

Connecticut Retirement Plans and Trust Funds (CRPTF)

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Engagement

Overview

LEA 01	Voluntary	Descriptive	PRI 2
---------------	------------------	--------------------	--------------

LEA 01.1 Provide a brief overview of your organisation's approach to engagement.

The CRPTF engages portfolio companies, both through the shareholder proposal process and through letters and other outreach, on ESG related issues. Often the financial performance of the company is a concern as well as the ESG issue identified by Treasury staff or by allied institutional investors.

The CRPTF has a long history of working collaboratively with other shareholders and investor groups, including the Council of Institutional Investors ("CII"), the Investor Network on Climate Risk ("INCR" part of Ceres), and members of the Interfaith Center on Corporate Responsibility ("ICCR").

LEA 03.1 Indicate whether your organisation has a formal process for identifying and prioritising engagement activities carried out by internal staff.

LEA 03.2 Describe how you identify and prioritise engagements.

CRPTF shareholder engagements are determined by the Connecticut State Treasurer based on recommendations from the Treasury's Policy unit. The Assistant Treasurer for Policy and the unit team identify through research on individual companies, as well as those portfolio companies brought to our attention by fellow shareholders, for engagement on specific ESG issues. Those issues range from board leadership structure to risks from firearms to greenhouse gas emissions encompassing all aspects of ESG.

Shareholder resolutions are filed at those portfolio companies where neither an agreement could be reached or where the company refused to engage with CRPTF and its shareholder allies. If an agreement can be reached the shareholder resolution will be withdraw. The engagement with the company may not end with the withdrawal of the proposal, but continue by addressing other ESG areas of concern.

The Assistant Treasurer of Policy meets with the Treasurer on a periodic basis to review the portfolio of shareholder engagement (focus list) companies. A monthly report is delivered to the Treasurer that outlines the status and disposition of on-going engagements. A quarterly written (and oral) report on those engagements, as well as the on-going proxy voting of the CRPTF equity portfolios, is presented to the Investment Advisory Committee.

Progress (including voting results on proposals not withdrawn) on all current shareholder engagements for the proxy season is collected by the Policy unit and assessed by the Treasurer after the proxy season. Policy prepares recommendations for the Treasurer's review and approval. Decisions are then made with respect to prospective new initiatives, new portfolio company engagements and the potential re-filing of shareholder resolutions.

The Assistant Treasurer and the Policy Unit utilize service providers (ISS and GMI) and review publicly-available information (including companies' SEC filings) in the focus list development process, and to ascertain whether companies are keeping their agreements with the CRPTF.
