RI TRANSPARENCY REPORT

2014/15

CSC

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Commonwealth Superannuation Corporation is trustee of nine superannuation schemes. Our schemes are set up solely to meet the superannuation needs of past, present and future Australian Government employees and members of the Australian Defence Forces and their families. Our vision is to grow the wealth of our members for their retirement.

We are appointed by the Australian Government to 'maximise members' benefits', subject to risk limits, and 'act in members' best interests' - responsibilities which are protected by law. We achieve this via disciplined and active investment of our schemes using a pooled investment trust. We aim for competitive returns and costs via disciplined investment frameworks. We also provide information and general advice to help our members develop the knowledge and skills to confidently manage their superannuation. Management of our business is aligned with Australian Government best-practice corporate governance principles. We value our legislated responsibilities as outlined in the Governance of Australian Government Superannuation Schemes Act 2011.

OA 01.3 Provide a brief description of the key elements of your responsible investment policy or, if you do not have a policy, of your overall approach to responsible investment. [Optional]

Commonwealth Superannuation Corporation (CSC) believes in sustainable investing, defined as responsible deployment of ESG policies; active ownership practices (Proxy voting policy); and consideration of inter-generational equity. CSC's ESG Policy includes active engagement with companies for better governance; applies investment-driven strategies; and excludes specific holdings in activities banned or likely to be banned by the Australian Government.

Commonwealth Superannuation Corporation's (CSC's) primary investment objective is to maximise long-term real returns for members whilst keeping risk to an acceptable level. We believe that poor management of environmental, social and corporate governance (ESG) issues can lead to financial risks as well as a decline in the long term value of shareholder investments. Analysis of ESG exposures and risks is a part of CSC's risk management. We manage risks associated with poor ESG practices by voting at shareholder meetings, through research and engagement, and through a range of key relationships that foster active management of ESG issues by shareholders, advisers and the companies in which we invest.

Examples of our specific policies: policies related to strategic partnerships for implementation of PRIs, tailored mandate with research based corporate engagement firm, retainer with MSCI's exclusion screening to implement any Board-nominated ESG exclusions.

(Proxy) voting and shareholder resolutions

Overview

LEA 16	Voluntary	Descriptive	PRI 2
---------------	------------------	--------------------	--------------

LEA 16.1	Provide a brief overview of your organisation’s approach to (proxy) voting (including the filing and/or co-filing of shareholder resolutions if applicable).
-----------------	--

Commonwealth Superannuation Corporation (CSC) values good governance in its own operations, in its service providers and in the companies in which it invests. Reflecting this principle, CSC has set down specific policies applying to the exercise of its voting rights and responsibilities.

Process

LEA 17	Mandatory	Descriptive	PRI 2
---------------	------------------	--------------------	--------------

LEA 17.1	Indicate how you typically make your (proxy) voting decisions and what this approach is based on.
-----------------	---

Approach

- We use our own research or voting team and make our own voting decisions without the use of service providers.
- We hire service provider(s) which make voting recommendations or provide research that we use to inform our voting decisions.

Based primarily on

- the service provider voting policy signed off by us
 - our own voting policy
 - our clients requests or policy
 - other, explain
- We hire service provider(s) which make voting decisions on our behalf, except for some pre-defined scenarios for which we review and make voting decisions.
- We hire service provider(s) which make voting decisions on our behalf.
