RI TRANSPARENCY REPORT

2014/15

CVC Capital Partners

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

 No

OA 01.3 Provide a brief description of the key elements of your responsible investment policy or, if you do not have a policy, of your overall approach to responsible investment. [Optional]

CVC Capital Partner's responsible investment policy sets out:

- 1) why it believes the management of environmental, social and governance (ESG) issues should be integral to the investment process;
- 2) the undertakings that CVC makes in relation to considering and managing ESG issues; and
- 3) how it plans to continually improve its responsible investment programme.

OA 03.2

Comment on any variations or exceptions in the coverage of your responsible investment policy. [Optional]

In the Asia portfolio it is more common for minority investments to be made and therefore, there may be instances where CVC Capital Partners is less well placed to influence portfolio companies in relation to ESG issues.

Our debt business, CVC Credit Partners, has a different ESG policy to that of the private equity business, to cater for the fact that the investment process is very different and that private debt investments are by their nature more passive investments.

OA 04

Mandatory

Core Assessed

General

OA 04.1

Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

Yes

OA 04.2

Describe your policy on managing potential conflicts of interest in the investment process. [Optional]

CVC may, from time to time, be presented with investment opportunities that fall within the investment objectives of more than one fund, and in such circumstances, CVC will allocate such opportunities (including any related co-investment opportunities) among the funds on a basis that CVC reasonably determines in good faith to be fair and reasonable, taking into account the sourcing of the transaction, the nature of the investment focus of each such CVC Fund, the relative amounts of capital available for investment, the nature and extent of involvement in the transaction on the part of the respective teams of investment professionals for the funds and other considerations deemed relevant by CVC in good faith.

Credit Partners Funds or other CVC Funds may participate in the debt tranches of an investment (alone or in addition to participating in the equity tranche). As the general partner, manager and/or adviser of these funds, CVC would owe a fiduciary duty to all of these funds. CVC is also the ultimate majority owner of CVC Credit Partners, which manages and / or advises the Credit Partners Funds. If a CVC fund were to purchase high yield securities or other debt or other instruments from a portfolio company senior to another CVC fund's investments, CVC may, in certain instances, face a conflict of interest in respect of the advice it gives to, and the actions it takes on behalf of, each fund (e.g., with respect to the terms of such high yield securities or other debt or other instruments, the enforcement of covenants, the terms of recapitalisations). If

a Credit Partners Fund were to purchase such securities, CVC may face a conflict of interest as the ultimate owner of CVC Credit Partners. To mitigate the risk of such a conflict arising, the investment decision process in respect of Credit Partners Funds runs separately to that in respect of CVC private equity funds with no overlap of decision making personnel.

For each CVC fund an Advisory Board will be established and the general partner of each fund may in certain situations choose to consult with or obtain the consent of the Advisory Board with respect to certain conflicts of interest or other matters.
