RI TRANSPARENCY REPORT

2014/15

Desjardins Investment Inc.

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

OA 07.1	Provide a brief description of your organisation's governance, management structures and processes related to responsible investment.
----------------	---

Responsible investment is an approach DI uses in 6 investment products (Desjardins Environment Funds, 4 SocieTerra portfolios and PrioriTerra index linked term deposit).

The implementation and revision process of those products begins with a marketing strategy analysis (diagnosis) that helps us better understand the needs of our existing and potential clients. Then, the implementation or the revision of products takes place, which then goes into market, thanks to the help of the marketing and promotion team, and they are then offered by financial advisors to our members and clients through our network of caisses.

Throughout the process, special attention is paid to responsible investments, which is integrated at all stages. Activities related to raising awareness towards RI and collaborating with other organization complements DI's core operations. A senior advisor dedicated entirely to responsible investment is also involved at all stages of the process. This advisor is also the spokesperson of the organisation on the subject of responsible investment.

Formal oversight is ensured by both DI's operational committee and DI's exploitation committee. A member of DI's top management oversees day to day operations.

Policies are adopted by DI's board of directors after being approved by the above mentioned committees.

Overview

SAM 01	Voluntary	Descriptive	PRI 1-6
---------------	------------------	--------------------	----------------

SAM 01.1 Provide a brief description of how your organisation includes responsible investment considerations in your investment manager selection, appointment and monitoring processes.

Among the variety of products offered by Desjardins Investment inc. (DI), 6 use a responsible investment approach. 4 are funds of funds (SocieTerra Portfolios) for which SRI screening is done by a specialized firm (NEI) and 1 retail mutual fund (Desjardins Environment Fund) with a SRI philosophy. The 6th product is managed internally.

SocieTerra Portfolios (Manager: NEI Investments):

Canada's leader in SRI, NEI Investments is a pioneer in developing methodologies for carrying out ESG evaluations of Canadian companies. NEI Investments has a team of experts dedicated exclusively to ESG evaluation (environmental, social and governance), corporate commitments, research and public policies and standards.

The ESG Department studies all of the companies in which the Ethical Funds invest, including some that are held in the SocieTerra Portfolios.

This multidisciplinary team, the largest in Canada, draws on the areas of expertise of its eight members - economics, trade, finance, the environment and natural sciences.

Sub-advisors managing the SocieTerra Portfolios rely on pre-selected universe of Canadian companies in which they can invest. International and foreign securities need to be pre-approved by NEI before investment as well but no pre-defined universes exist.

Desjardins Environment Fund (RI considerations by the Environmental Advisory Group):

Created in 1990, the Desjardins Environment Fund is the only one in Canada with access to a group of independent experts (Environmental Advisory Group) to assess company eligibility based on environmental assessment criteria.

The Environmental Advisory Group is made up of specialists from a variety of fields such as biology, law, environmental management, ethics, etc.

Five-step environmental evaluation process:

1. The list of companies (the stocks that make up the Canadian S&P/TSX Index) is reviewed twice yearly.
2. The research report by NEI Investments' ESG Services Department is reviewed.
3. The members of the Group analyze the report individually.
4. The Group meets to discuss the report.
5. Recommendations are issued: reject, eligible or wait-list to obtain additional information

The Group's only mission is to issue recommendations based on the environmental evaluation policy. It makes no investment decisions. Exclusion (arms/tobacco/nuclear) and inclusion (ESG) filters are used to screen the Canadian equity universe.

The Environmental Advisory Group identifies the listed securities that qualify with ESG issues and provides the external portfolio manager with the buy list. The external portfolio manager then chooses from the list the best candidates for purchase in the portfolio according to his fundamental investment approach. The external portfolio manager can propose an investment idea to the Desjardins consulting group for ESG review. He needs Environmental Advisory Group agreement to purchase the security. It is Environmental Advisory Group responsibility to check ESG compliance and constraints and to provide/review/update the purchasing securities list on a quarterly basis.

Topic or ESG issue	Pipeline safety
Conducted by	<input checked="" type="checkbox"/> Service provider
Objectives	This is a dialogue that has been ongoing with Enbridge for many years. We continue discussing pipeline safety to get a better understanding of the current situation with respect to oil transportation and future pipeline projects, especially the reversal of line 9.
Scope and Process	<p>In April 2014 we provided Enbridge with examples of good practices in public policy lobbying transparency, asking the company to improve upon its current disclosure. The company indicated that it would strive to incorporate these suggestions its next CSR report, scheduled for release in June 2014.</p> <p>Also in April 2014, we met with the recently-appointed Chief Sustainability Officer and the Senior Vice President for Enterprise Safety and Operational Reliability. Our discussions covered topics including recent disclosure enhancements, best practices for stakeholder panels, and progress in implementing a new safety culture.</p> <p>We had previously engaged Enbridge on improving integrity management practices and urged the company to enhance disclosure in this area. The company has now published a report addressing this topic specifically, with additional disclosure planned for the near future. Enbridge also indicated that by 2015 the company would release its CSR report at the same time as its annual financial report. We commended these sector-leading commitments.</p> <p>We encouraged the company to establish a stakeholder panel to assist with its stakeholder engagement strategy. The company expressed interest in continuing the discussion on possible options later in 2014.</p> <p>Finally, the company outlined progress in implementing a safety culture consistent with a High Reliability Organization. This concept is common in the chemical and aerospace sectors, but Enbridge believes its approach may be unique within its own industry. The company appears to be making significant strides in developing safety culture.</p> <p>In October 2014 we met with Enbridge to further our dialogue on public policy transparency, stakeholder panels, and pipeline spill statistics disclosure. In an addendum to its 2014 CSR report, the company had implemented several public policy transparency measures that we had proposed earlier, and the company asked for our feedback. We provided suggestions for improvement, calling for more detail on the company's lobbying activity and its position on material issues such as climate change policy, pipeline integrity regulation and First Nations rights. The company agreed to consider expanding disclosure on these issues in next year's CSR report.</p> <p>We also confirmed that Enbridge was considering our advice to implement an external stakeholder panel, and informed the company of our plan to write to the board to express support for such a panel and share our perspective on best practices in this area.</p> <p>Regarding the lack of comparable data on country-wide pipeline performance, the company agreed to raise our concerns at the Canadian Energy Pipeline Association (CEPA), the appropriate body to address this problem. We will consider following up directly with CEPA.</p>

Outcomes	<p>In March 2014, Desjardins Investments inc. was reporting that, in its recent publications, more accessible to the public, Enbridge has transported more than 13 billions of barrels of oil with a security rate of 99,9993%.</p> <p>To an overview, visit http://www.fondsdesjardins.com/information/bulletin-monde-en-action-2014-t1-fr.pdf.</p> <p>In addition, in an addendum to its 2014 CSR report, the company had implemented several public policy transparency measures that we had proposed earlier, and asked for our feedback.</p> <p>We also confirmed that Enbridge was considering our advice to implement an external stakeholder panel.</p>

(Proxy) voting and shareholder resolutions

Overview

LEA 16	Voluntary	Descriptive	PRI 2
--------	-----------	-------------	-------

LEA 16.1 Provide a brief overview of your organisation's approach to (proxy) voting (including the filing and/or co-filing of shareholder resolutions if applicable).

As manager, Desjardins Investments Inc. (DI) exercises the voting rights attached to the securities it owns on proposals submitted at the general meetings of the companies held in the Desjardins Fund portfolios.

Accordingly, it votes on behalf of all Desjardins Funds unit holders.

The Desjardins Funds comply with the provisions of Regulation 81-106 of the Canadian Securities Administrators as regards the policy on proxy voting.

Our proxy voting policy is very extensive and covers a broad range of ESG issues.

LEA 17.1

Indicate how you typically make your (proxy) voting decisions and what this approach is based on.

Approach

- We use our own research or voting team and make our own voting decisions without the use of service providers.
- We hire service provider(s) which make voting recommendations or provide research that we use to inform our voting decisions.
- We hire service provider(s) which make voting decisions on our behalf, except for some pre-defined scenarios for which we review and make voting decisions.

Based primarily on

- the service provider voting policy signed off by us
- our own voting policy
- our clients requests or policy
- other, explain
- We hire service provider(s) which make voting decisions on our behalf.

- Add Example 1

Topic or ESG issue	Governance - diversity at the board
Decision made by	<input checked="" type="checkbox"/> Internal staff <input type="checkbox"/> Service provider
Objectives	Send a signal to issuers that lack of diversity at the board (i.e. no women) was not acceptable. Diversity is part of sound governance.
Scope and Process	Almost 40 percent of companies on the TSX don't have any women on their boards of directors, so Desjardins Investments decided to oppose the chair put forward by a nominating committee if the company doesn't have any women on its board.
Outcomes	In 2014, that meant 62 votes against chair of nominating committee.
