RI TRANSPARENCY REPORT

2014/15

Dodge & Cox

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

LEI 03.2

Describe your primary reasons for choosing a particular ESG incorporation strategy.

The foundation of our investment approach is deep, fundamental analysis on companies and securities, combined with a strict valuation discipline. Our research analysts and portfolio managers consider ESG issues using information from a variety of sources as part of the fundamental analysis and evaluation of companies and securities for inclusion in our various portfolios. ESG issues will affect investment decisions when such matters are deemed to have a material effect on our investment thesis and assessment of the company's potential risks and rewards.

We incorporate exclusionary screening in addition to integration where separate account clients have specified exclusionary criteria to apply to their portfolios.

(A) Implementation: Screening

LEI 06	Mandatory	Descriptive	PRI 1
--------	-----------	-------------	-------

LEI 06.1

Indicate and describe the type of screening you apply to your internally managed active listed equities.

Type of screening

- Negative/exclusionary screening

Screened by

- Product
 Activity
 Sector
 Country/geographic region
 Environmental and social practices and performance
 Corporate governance

Description

Our separate account clients that have socially responsible investment mandates provide us with screening criteria, which we implement on their behalf using information from a third-party service provider.

- Positive/best-in-class screening
 Norms-based screening

LEI 06.2

Describe how the screening criteria are established, how often the criteria are reviewed and how you notify clients and/or beneficiaries when changes are made.

Screening criteria are established by individual clients as part of their investment guidelines. We implement client screens using tools available through a third-party service, MSCI ESG Research. Proposed new holdings for a client portfolio are checked against the screens before purchase, and existing holdings are checked against the screens semi-annually. Clients may also identify specific issuers that they do not want to hold in their portfolios.

LEI 07	Mandatory	Core Assessed	PRI 1
--------	-----------	---------------	-------

LEI 07.1

Indicate which processes your organisation uses to ensure that screening is based on robust analysis.

- Comprehensive ESG research is undertaken or sourced to determine companies' activities and products.
- Companies are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- External research and data used to identify companies to be excluded/included is subject to internal audit by ESG/RI staff, the internal audit function or similar
- Company ESG information/ratings are updated regularly to ensure that portfolio holdings comply with fund policies
- A committee or body with representatives independent of the individuals who conduct company research reviews some or all screening decisions
- A periodic review of the quality of the research undertaken or provided is carried out
- Other, specify
- None of the above

FI 04.2

Describe your primary reasons for choosing a particular incorporation strategy.

The foundation of our investment approach is deep, fundamental analysis on companies and securities, combined with a strict valuation discipline. Our research analysts and portfolio managers consider ESG issues using information from a variety of sources as part of the fundamental analysis and evaluation of companies and securities for inclusion in our various portfolios. ESG issues will affect investment decisions when such matters are deemed to have a material effect on our investment thesis and assessment of the company's potential risks and rewards.

We incorporate exclusionary screening in addition to integration where separate account clients have specified exclusionary criteria to apply to their portfolios.

(A) Implementation: Screening

FI 06

Mandatory

Descriptive

PRI 1

FI 06.1

Indicate and describe the type of screening you apply to your internally managed active corporate fixed income investments.

Type of screening

- Negative/exclusionary screening

Screened by

- Product
- Activity
- Sector
- Country/geographic region
- Environmental and social practices and performance
- Corporate governance

Description

Our separate account clients that have socially responsible investment mandates provide us with screening criteria, which we implement on their behalf.

- Positive/best-in-class screening
- Norms-based screening

FI 06.2

Describe how the screening criteria are established, how often the criteria are reviewed and how you notify clients and/or beneficiaries when changes are made.

Screening criteria are established by individual clients as part of their investment guidelines. We implement client screens using tools available through a third-party service, MSCI ESG Research. Proposed new holdings for a client portfolio are checked against the screens before purchase, and existing holdings are checked against the screens semi-annually. Clients may also identify specific issuers that they do not want to hold in their portfolio.

FI 07.1

Indicate which processes your organisation uses to ensure that screening in corporate fixed income is based on robust analysis.

- Comprehensive research is undertaken or sourced to determine issuers' ESG performance
- Issuers are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- External research and data used to identify issuers to be excluded/included is subject to internal audit by ESG/RI staff, the internal audit function or similar
- Information on ESG issues and/or ratings is updated regularly to ensure that portfolio holdings comply with fund policies
- A committee or body with representatives independent of the individuals who conduct ESG research reviews some or all screening decisions
- A periodic review of the quality of the research undertaken or provided is carried out
- Other, specify
- None of the above
