# RI TRANSPARENCY REPORT

## 2014/15

Drapac

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

## Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

- Environmental

List up to three typical examples of environmental issues

A comprehensive due diligence procedure involving an in-depth environmental analysis is always carried out by Drapac's executive team prior to every asset acquisition.

External consultants are employed in relation to environmental issues pertaining to potential property acquisitions in the due diligence stage prior to offers being made.

Environmental performances or acquired properties are closely investigated, and management systems are implemented to improve performance if it is deemed environmentally sustainable to do so.

- Social

List up to three typical examples of social issues

Drapac sponsors the Drapac Professional Cycling team, which focuses on redefining athletes success and having meaningful life goals once their sporting careers have ended.

Drapac Professional Cycling looks to create multi-dimensional people not just athletes, by placing equal emphasis on athletic, personal, social and post-cycling career development.

Drapac consistently engages with its stakeholders and suppliers to ensure that they are both working towards positive strategic goal management of the organisation.

- Governance

List up to three typical examples of governance issues

Drapac applies an intensive risk management strategy, which minimises adverse effects for all potential risks; ensuring financial objectives are achieved throughout the entire investment cycle.

All of Drapac's investment funds are based on a model of performance remuneration ensuring that investors interests are aligned with Drapac's interests.

Several leading professionals have been appointed on the Drapac Advisory Committee to advise the executive team on the strategic management of Drapac's investment funds.
