RI TRANSPARENCY REPORT

2014/15

Deutsche Zurich Pensiones, E.G.F.P., S.A.

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

OA 04.1 Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

- Yes

OA 04.2 Describe your policy on managing potential conflicts of interest in the investment process. [Optional]

As Deutsche Zurich Pensiones is a part of Deutsche Bank and Zurich Insurance, the policy on managing potential conflicts of interest is aligned of both (the investment of Deutsche Bank Group is managed by DeAWN, while the investment of Zurich is managed by themselves).

Therefore, Deutsche Zurich Pensiones combines our investment knowledge with an external ESG, who provide us wide range information of risk management solutions. As well, we have an independent ESG research provider and ESG advisory panel.

Our policy is to take all reasonable steps to maintain and operate effective organisational and administrative arrangements to identify and manage relevant conflicts. So, this is well regarded by ESG experts from foundations, clergy, academia and industry periodically.

LEI 03.2

Describe your primary reasons for choosing a particular ESG incorporation strategy.

Our concept of Responsible Investing comes to the idea that integrating an ESG into the investment process contributes a better understanding of businesses. So, this allows us to make a right selection of opportunities and, as well, the risks that other kind of financial analysis don't allow.

Therefore, ESG adds quality of our investment decisions and offers opportunities for higher returns.
