RI TRANSPARENCY REPORT

2014/15

Hunter Hall Investment Management Limited

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Hunter Halls Responsible Investment strategies:

Negatively screened funds

Hunter Hall's Ethical Investment Policy seeks to avoid investments that are, in Hunter Halls opinion, involved in activities that are harmful to people, animals or the environment.

Specifically this involves the use of 'negative screen' which seeks to avoid investment in companies that derive operating revenues from direct and material business involvement in:

- the manufacture or sale of weapons and weapons components
- tobacco manufacture
- gambling outlets or systems
- intensive animal farming
- animal testing for cosmetics
- activities that give rise to human rights violations
- unremediated destruction of the environment
- uranium mining and nuclear reactors
- fossil fuel exploration, production, refining, storage and transportation

Positively screened fund

The positively screened fund seeks to invest in companies that are deemed by Hunter Hall to contribute positively to environmental, humanitarian, social and sustainability issues

ESG fund

Our ESG fund seeks to deliver a 'Sustainability Dividend' as a result of the following activities:

- The portfolio's orientation towards companies with a higher Environmental, Social and Governance (ESG) ranking than its ESG benchmark
- A portfolio with lower carbon-intensity than the S&P/ASX 300 Accumulation Index
- Constructive engagement with companies to improve their ESG rankings
- Proxy voting on companies' resolutions to improve their ESG rankings
- Shareholder activism to improve companies' ESG rankings.

LEI 03.2

Describe your primary reasons for choosing a particular ESG incorporation strategy.

Hunter Hall aims to be a thought leader in responsible investment. Hunter Hall has traditionally applied an Ethical Investment Policy based on a negative screen. This policy applies to our retail funds.

Hunter Hall launched a new fund which incorporates ESG into its investment strategy.

Hunter Hall believes incorporating ESG factors in to the investment decisions will result in superior performance over the long term.

(A) Implementation: Screening

LEI 06	Mandatory	Descriptive	PRI 1
--------	-----------	-------------	-------

Type of screening

- Negative/exclusionary screening

Screened by

- Product
- Activity
- Sector
- Country/geographic region
- Environmental and social practices and performance
- Corporate governance

Description

Specifically this involves the use of 'negative screen' which seeks to avoid investment in companies that derive operating revenues from direct and material business involvement in -

- the manufacture or sale of weapons and weapons components
- tobacco manufacture
- gambling outlets or systems
- intensive animal farming
- animal testing for cosmetics
- activities that give rise to human rights violations

- uranium mining and nuclear reactors
- fossil fuel exploration, production, refining, storage and transportation

- Positive/best-in-class screening

Screened by

- Product
- Activity
- Sector
- Country/geographic region
- Environmental and social practices and performance
- Corporate governance

Description

Hunter Hall's positively screened fund, the Global Deep Green Trust (GDG)

Invests in companies that are deemed to contribute positively to environmental, humanitarian, social and sustainability issues. The GDG invests globally in activities such as:

- renewable energy from solar, wind, waves, geothermal, biomass, advances in battery, storage and transmission technologies and efficiency gains

- technologies and products which reduce environmental damage such as hybrid automobile engines, water purification and desalination, waste management and advanced materials
- medical services and devices, biotechnology, pharmaceuticals and veterinary care
- education and communications
- animal husbandry, aquaculture, fisheries, forestry and agriculture conducted in an environmentally sustainable and humane way
- activities and instruments involved in microfinance, water management, biodiversity credits, carbon credits, intellectual property related to DNA

Norms-based screening

LEI 06.2

Describe how the screening criteria are established, how often the criteria are reviewed and how you notify clients and/or beneficiaries when changes are made.

Hnter Hall's flagship fund was established 20 years ago and the Manager's ethical investment policy has evolved and been refined over the last 15 years. The negative screen has remained relatively consistent with the last major changes being the introduction of a traffic light system in 2010 and the implementation of a fossil fuel screen in 2014.

The positively screened fund was launched in 2007 which lead to the addition of the positive screen

Any change requires board approval and clients are notified via an update to the website, email or direct mail.
