RI TRANSPARENCY REPORT

2014/15

Integrity Investment Management

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Integrity Investment Management (Integrity) believes that by incorporating Environmental, Social and Governance (ESG) factors into our investment process, we are not only considering potential risks, but also opportunities, consistent with our objective of maximising long term investment returns for clients.

As a DCF focused manager, Integrity is able to integrate the valuation impacts of ESG considerations into the analytical process. Analysts incorporate ESG issues in their qualitative research and then make a quantitative determination concerning the impact of relevant ESG factors alongside other investment considerations. This approach is consistent with our philosophy that all identifiable material risks and opportunities are considered in formulating a view of sustainable earnings.

Integrity will engage companies on material risks and opportunities (including ESG) identified during the research process.

LEI 03.2	Describe your primary reasons for choosing a particular ESG incorporation strategy.
----------	---

Integrity is of the view that whilst the market is increasingly aware of ESG issues, it has yet to develop sophisticated and systemic means of reflecting these issues in valuations. Whilst approaches to investment that are not based upon valuation and consideration of cash flows struggle to incorporate ESG impacts on valuation, Integrity's disciplined approach to valuation and incorporation of all factors that impact cash flows, means that ESG issues can be considered and integrated into our investment process.

As such, companies which exhibit a sustainable competitive advantage will generally rank well in our valuation list and thus be included in the portfolio. Integrity sees management of ESG risks and opportunities as important drivers of long term sustainable earnings, although the specific valuation implications will differ by industry and company. Relevant ESG considerations are incorporated alongside other business drivers in the research process, such that they impact on future sustainable cashflows based valuations.

LEI 03.3

Where assets are managed using a combination of ESG incorporation strategies, briefly describe how these combinations are used. [Optional]

Integrity offers clients the option to have a 'Tailored ESG' strategy where additional screening is employed. This Portfolio remains an actively managed Australian Equity portfolio however various stocks and sectors are screened out of the investible universe on ESG factors. These assets are managed using the same research process for all funds which integrates ESG risks/returns as part of the research process.

Process

LEA 17	Mandatory	Descriptive	PRI 2
--------	-----------	-------------	-------

LEA 17.1	Indicate how you typically make your (proxy) voting decisions and what this approach is based on.
----------	---

Approach

- We use our own research or voting team and make our own voting decisions without the use of service providers.
- We hire service provider(s) which make voting recommendations or provide research that we use to inform our voting decisions.

Based primarily on

- the service provider voting policy signed off by us
- our own voting policy
- our clients requests or policy
- other, explain
- We hire service provider(s) which make voting decisions on our behalf, except for some pre-defined scenarios for which we review and make voting decisions.
- We hire service provider(s) which make voting decisions on our behalf.

LEA 21	Mandatory	Core Assessed	PRI 2
--------	-----------	---------------	-------

LEA 21.1	Indicate if you ensure that companies are informed of the rationale when you and/or the service providers acting on your behalf abstain or vote against management recommendations.
----------	---

- Yes, in most cases
- Sometimes, in the following cases:
 - votes in selected markets
 - votes on certain issues (all markets)
 - votes for significant shareholdings (all markets)
 - other, explain
- No
- Not applicable as we and/or our service providers do not abstain or vote against management recommendations
