RI TRANSPARENCY REPORT

2014/15

Mandarine Gestion

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Mandarine Gestion signed the PRI, hired an internal team dedicated to ESG issues. Our approach, beyond the presence of a SRI and a social impact funds, is to bring the most relevant ESG elements to our team, to help them integrating ESG datas in their investment decisions. Several things are in place to manage that goal : ESG ratings, ESG questions for companies meetings, dedicated committees (every month with top management, 6 per year with the entire team)

LEI 03.2

Describe your primary reasons for choosing a particular ESG incorporation strategy.

Mandarine Gestion has implemented an overall ESG policy for the company and its activities. In addition to our SRI fund, we have developed an ESG integration approach for all our funds, including the non-SRI ones. The RI management process has been implemented around an in-house tool, "ESG-View". This tool, dedicated to ESG data, is under the responsibility of the Head of SRI management. His role is to fill the tool with ESG data, coming from his own research or external research, and trying to cover the whole investment universe of our funds. This information is provided through the ESG-View tool to the front-office tool of all the fund managers who have then access to all ESG data on their portfolio's holdings. The fund managers' responsibility is to have knowledge of this information and to be aware of ESG stakes, but without any duty or constraint, except for our SRI fund which has specific RI policy and process, and active RI constraints.

The RI management use external tool to stay informed of any controversy that concerns a listed equity invested on a fund. The ratings are, as much as possible, updated continuously thanks to new reports or meetings with the companies.
