RI TRANSPARENCY REPORT

2014/15

NGS Super Fund

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

As a consequence of being a long term investor, ESG factors have been incorporated into our investment decision making framework as an essential component to fulfil the fiduciary obligations owed to members. Wherever practical, we seek to incorporate ESG issues into investment analysis and the decision-making processes. We are active owners and incorporate ESG issues into our ownership policies and practices. We seek disclosure on ESG issues from the entities in which we invest. We promote the implementation of ESG investing within the investment industry as exemplified by our recent investment in social benefit bonds.

LEA 04.3

Describe how you monitor and evaluate the progress of your engagement activities.

ACSI annually creates a list of engagement priority companies with specifically defined concerns and objectives for each company. Objectives are meaningful changes in company behavior. ACSI also sets objectives for the proportion of all priority companies where objectives are met (for example, ACSI may aim for over 50% of all priority companies' objectives to be met).

Monitoring and evaluation is done through semiannual progress reports, itemized company by company and in aggregate, which are delivered to member funds.

Inbound engagements with companies that are not on the priority list also involve specific objectives, though typically less material. Monitoring of these is done through annual evaluation by ACSI's Member Council, and a range of internal reports. The results of these engagement meetings are also included in ACSI's proxy voting reports and surveys involving all companies in ACSI's universe (called "longitudinal" research projects).
