RI TRANSPARENCY REPORT

2014/15

Oaks Field Partners

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

OA 01.1	Indicate if you have a responsible investment policy.
---------	---

- Yes
 No

OA 01.2	Indicate if you have other guidance documents or more specific policies related to responsible investment.
---------	--

- Yes
 No

OA 01.3	Provide a brief description of the key elements of your responsible investment policy or, if you do not have a policy, of your overall approach to responsible investment. [Optional]
---------	---

OFP (Oaks Field Partners) has also initiated a process aimed at signing the SGP (Portfolio Management Companies) Charter for Investors, which was developed by Af2i (the French Association of Institutional Investors) and by the AFG (the French Financial Management Association). The OFP funds do not invest in the defence and tobacco sectors (contribution to revenues of over 33%) according to the SPIRI criteria via their investment management and bond holdings. OFP promotes the implementation of a certain number of internal practices aimed at making the Company more efficient from an energy, environmental, and social standpoint in its day-to-day operational management.

OA 04	Mandatory	Core Assessed	General
-------	-----------	---------------	---------

OA 04.1	Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.
---------	---

- Yes

OA 04.2	Describe your policy on managing potential conflicts of interest in the investment process. [Optional]
---------	--

We have defined an internal policy to manage potential conflict of interest eventhough, we never encountered such a case. The policy is the following:

Perform the activity or transaction to the extent that the organization can manage appropriately potential situation of conflict of interest

- Inform the customer in case of certain conflicts of interest existence and communicate the necessary information on their nature and origin
- If necessary, do not realize the activity or transaction causing the conflict of interest. The company must manage the conflict of interest from its detection to an appropriate treatment.

As such, OFP has set up an organization to:

- Prevent the appearance of conflicts of interest, by raising awareness of its entire staff rules and codes of conduct and internal space, and the setting p strict rules and procedures:
- Implementation of an internal control system
- Separation of functions that can generate potential conflicts of interest

- Ensure constantly that OFP offering corresponds to the profile and expectations of its customers, and never in conflict with the needs of customers. The forced sale of products or services is of this view malpractice
- Recording telephone conversations from OFP contractors
- Prohibition of market transactions personally implemented which would not respect the rules set by the company
- Training and awareness by all staff of the profession in good practices

Identify conflicts of interest that could affect the interests of our investors by establishing a risk map of these conflicts of interest.

This mapping specifies the types of activities for which a conflict of interest is likely to occur. OFP's Head of Compliance in particular has to ensure the updating of this mapping.

- Fully and objectively inform clients, by refraining from using of tendentious arguments while noting the constraints and risks certain products or certain transactions
- Declare the gifts and benefits received at Head of Compliance accord

No

OA 04.3 Additional information. [Optional]

Our investment process being based on a quantitative data modeling and a discretionary approach only on highly liquid assets and as we are very transparent in the implementation. We believe that there is no potential conflict of interest.
