RI TRANSPARENCY REPORT

2014/15

Pantheon Ventures

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Pantheon, its Partners and staff will endeavour to:

- Take account of Environmental, Social and Governance ("ESG") issues in the investment process;
- Engage with GPs to promote the importance of ESG issues;
- Provide on-going ESG training to Pantheon investment professionals;
- Maintain ESG risk monitoring post-investment;
- Endeavour to keep our LPs aware of the level of ESG risks;
- Encourage all industry participants to recognize and act on ESG issues; and
- Continue to enhance our RI approach to maintain a leading position in the industry.

Pantheon's approach to Responsible Investment ("RI") and an overview of how ESG factors are incorporated into the investment process are included in the Pantheon fund PPMs.

Internally Pantheon has guidance documents which cover the firm's approach to RI, which can be referenced by the investment team members. Topics covered include:

- Pantheon's ESG due diligence procedures for primary, secondary and co-investments respectively;
- Key questions for GPs on their ESG approach and procedures for mitigating these risks;
- Key ESG issues to consider and examples of ESG risks;
- List of particularly sensitive sectors; and
- Guidelines for monitoring ESG risks at the GP, Fund and Company levels.

<input type="checkbox"/> Other, specify	

OA 03.2 Comment on any variations or exceptions in the coverage of your responsible investment policy. [Optional]

Pantheon's RI policy and fundamental approach is consistent and applied across all investments strategies and across all regions in which we invest.

Note however that we are able to conduct slightly different levels of due diligence when assessing primary, secondary and co-investment opportunities. Due diligence for primary investments includes an examination of the GPs Responsible Investment policy and their track record in managing companies that may have been exposed to ESG risks. For secondary investments we are able to analyse the extent that such a deal is exposed to high or medium risk ESG underlying companies. For co-investments we are able to conduct comprehensive ESG due diligence on the company, as well as the approach that the GP may take to address any such risks.

OA 03.3

Additional information. [Optional]

Pantheon operates a policy of "no negative screens". We believe that it is better to understand where ESG risks exist within our portfolio and understand what the GP intends to do to mitigate these over their period of ownership rather than just excluding them. These improvements can then be monitored over the ownership period.

OA 04

Mandatory

General

OA 04.1

Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

Yes

OA 04.2

Describe your policy on managing potential conflicts of interest in the investment process. [Optional]

Pantheon manages a series of funds-of-funds and separate account vehicles. We have in place robust procedures to manage conflicts that may arise in the management of those vehicles. Pantheon does not provide services other than private equity and infrastructure investment management and therefore is free from conflicts that may arise in organizations with a range of lines of business. See below for a brief description of some of Pantheon's procedures to manage conflicts:

- No transaction fees: No part of Pantheon's organization receives remuneration from managers of portfolio funds, mitigating fee driven conflicts of interest.
- Pantheon has a strict Personal Securities Accounts/Trading Policy and a Gifts and Entertainment Policy which have been implemented to address conflicts of interest.
- Cross-Fund Investments: Occasionally, managers of portfolio funds face conflicts of interest in relation to one portfolio fund (the predecessor portfolio fund) and another portfolio fund (the successor portfolio fund), for example in relation to an investment by the successor portfolio fund in a portfolio company of the predecessor portfolio fund. Typically, the portfolio fund manager will seek to resolve such conflicts through operation of the advisory committees of each of the predecessor portfolio fund and the successor portfolio fund. These conflicts can be replicated at the level of Pantheon clients, as Pantheon manages multiple pools of capital and may be represented on the advisory committee of either or both of the predecessor portfolio fund and the successor portfolio fund respectively. Pantheon has procedures in place to mitigate these conflicts, involving separate deal teams, and annually reports to its own advisory committees on the resolution of conflicts through these procedures.
- Conflicts can arise in relation to the allocation of investment opportunities between different Pantheon funds and separate account clients. Pantheon's overriding policy is to allocate investment opportunities on a fair and equitable basis consistent with and subject to any applicable fiduciary or contractual duties.

Very occasionally, if Pantheon were to face a material conflict of interest that it was unable to manage effectively, Pantheon would convene meetings of the advisory board of the relevant Pantheon Fund to discuss proposals to manage such conflict.

No

OA 04.3 Additional information. [Optional]

Pantheon has a formal Conflicts of Interest policy which sets out conflicts which may arise in the course of its business and the procedures that Pantheon takes to mitigate such conflicts. Some of these conflicts are summarised in 4.2 above.

OA 05.4 Additional information. [Optional]

Pantheon is committed to developing and continually improving its RI activities with the aim to maintain a leading position in the industry. Setting objectives on an annual basis gives the firm clear goals and measures which we can track our progress against. Objectives in prior years which have been achieved include the formal integration of ESG considerations into the due diligence process across all Pantheon investment strategies, hosting workshops for GPs and LPs to promote the importance of responsible investment, and working with other market participants through positions on industry bodies and speaking at conferences.

OA 08.3

Additional information. [Optional]

As set out in 7.1, Pantheon has an RI Committee which is responsible for driving the firm's RI activities. The RI Committee reports to the firm's International Investment Committee ("IIC"), which comprises Pantheon's most senior investment professionals. The IIC is responsible for oversight of all of Pantheon's investment activities including the firm's adherence to its RI policy and the continuous development of RI initiatives. Members of the RI Committee have a remit to work closely with other investment professionals to make sure they are fully aware of Pantheon's RI initiatives, ESG incidents and wider industry developments. Pantheon also works with a number of external consultants on an ad hoc basis to develop its RI initiatives and to train staff.

Additional information. [Optional]

Pantheon has hosted a number of Responsible Investment workshops for both LPs and GPs where we promote the importance of integrating ESG considerations into the investment process and provide advice on specific procedures to achieve this. Our strong relationships with both GPs and LPs put us in a strong position to promote the importance of RI. We have also worked closely with GPs on a one to one basis that need advice and guidance in putting in place a formal RI programme.

In 2012 we introduced an award for GPs, the Pantheon GP Responsible Investing Award. This award is presented annually at Pantheon's annual investor meeting and 2014's winner was Apollo.

As a leading private equity fund investor Pantheon sits on over 285 advisory board seats of underlying funds. We raise ESG issues at Advisory Board meetings and discuss such issues with the GP and other LPs.

Key considerations in the due diligence process pre-investment include:

- The types of sectors that the GP plans to invest in
- How the GP identifies actual or potential ESG issues, and put in place procedures for risk mitigation.
- Who is responsible for managing ESG risks? Is there any specialist internal resource to complement the work of the investment team, e.g. a risk or compliance officer?
- The processes are in place to enable portfolio company management to address ESG issues and the control systems used
- Whether the GP uses specialised external technical support to conduct environmental and social impact assessments as part of due diligence and / or to identify issues and design an action plan for improvements.
- If the GP has previously invested in high-risk sectors, how such risks have been managed and did the GP proactively identify opportunities for improvements.
- How does the GP plan to improve governance in investee companies, e.g. by strengthening boards or improving financial reporting
- Does the GP already report on ESG matters? How and to whom?

As previously outlined, post-investment Pantheon maintains ESG risk ratings at GP, fund and company levels. This enables us to track the overall ESG risk profile in a particular portfolio as well as identifying any companies which exhibit a degree of ESG risk, which we will the aim to address with the GP. These ratings also form the basis of ESG risk reporting to clients.

Pantheon is proactive in raising potential ESG issues at Advisory Board meetings, which may help alert the GP and other LPs to such concerns.

SAM 10.2	Provide additional information relevant to your organisation's selection approach for non-listed assets. [Optional]
-----------------	---

Pantheon also has procedures in place for examining the potential for fraud, rogue activities and other unethical behaviour of GPs. Pantheon's global footprint provides a comprehensive perspective of institutional quality funds across the world. Pantheon's extensive cross referencing of GPs prior to investment, including both on-list and off-list referencing through Pantheon's vast network, means that Pantheon makes every effort to invest only in fund managers that are of institutional quality and in managers that understand the importance of reputation in the market place.

Pantheon does not operate a negative screen policy and as such we encourage our GPs to inform us of any ESG issues identified prior to acquisition. If the GP does complete a transaction where there are clear and identified ESG risks we will discuss mitigation strategies with the GP over the intended period of ownership and will monitor their progress against these plans and any deviations from them. We also actively engage with GPs over ESG issues that arise over their period of ownership that were not foreseen. Pantheon actively monitors press and other sources and will proactively engage with a GP if an issue has been raised in the public domain or through part of the Pantheon network.
