RI TRANSPARENCY REPORT

2014/15

Pensions Caixa 30 FP

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

As a guide for monitoring and controlling ESG issues the following initiatives are considered:

- Los Principios para la Inversión Responsable de Naciones Unidas (UN PRI).
- Tratados internacionales: Pacto Mundial, Protocolo de Kyoto.
- Principios de la Organización Internacional del Trabajo (OIT).
- Estándares: International Corporate Governance Network (ICGN).

Exclusion criteria:

- Child or forced labor
- Failure to respect human or labor rights
- Environmental degradation
- Controversial armement
- Misleading advertising of alcohol and drugs.

Measuring instruments, verification and control.

Given the use of third party funds, our underlying compnaies in which we invest represent thousands of companies. This implies having tu use an external provider to identify the sector of each company, the rating assigned to each of the six topics included the rating agency: Environment, Human Rights, Human Resources, Market Behavior, Commitment to Society, Good Governance and the controversies that each company might be involved.

As a result of the aggregation of the ratings of the underlying compnaies, each fund gets its rating. The aim of this is the constant improvement of the ASG rating of the pension fund.

Activism and implication

These two UNPRI Principles has to be treated indirectly due to the Pension Fund's investment strategy via third party Funds.

In particular we will seek to contact with those managers who hold in their portfolios unwanted positions to urge its restructuring actions and if not proceed to the divestment in that fund. This will be developed in constant dialogue with the Fiduciary Manager (Vidacaixa) with the assistance of the SRI consultant.

Additionally Pensions Caixa 30 engages in conferences, forums and platforms, together with other signatories to the UN PRI, encourage fund managers to integrate ESG principles in the selection of their portfolios. A preference for those managers who are, in turn, signatories to the UN PRI (as Vidacaixa) states.

Also, in the same forums, we are encouraging investment managers to allow pro-rata voting.

In discussions of cases in which a member of the Commission is personally interested, as well as the ones in which a relative or a person that holds a special and/or significant relation either particular and/or professional, that member must inform to the Commission about its implication, type and grade of the relation, for the Commission itself considers if that person should refrain from intervening in the discussion and/or voting.
