RI TRANSPARENCY REPORT

2014/15

Riviera Gestora de Recursos Ltda

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

OA 01.3 Provide a brief description of the key elements of your responsible investment policy or, if you do not have a policy, of your overall approach to responsible investment. [Optional]

Riviera Investimentos has long recognised that environmental, social and governance (ESG) issues can have a significant impact on private equity investment, in terms of raising funds, making investments, managing investments and creating value in each portfolio company.

Firms with an environmentally sustainable and socially responsible way of operating significantly de-risk their business model, and therefore, achieve greater cost efficiencies and profitability, attracting higher valuations at realisation in both the capital markets and with trade buyers.

The Riviera Investimentos team will, to the best of our ability:

1. Comply with relevant regulations governing the protection of human rights, occupational health and safety, the environment, and the labour, and business practices of the jurisdictions in which we conduct business.
2. Regard implementation of our ESG engagement activities as an integral part of how we do business.
3. Appoint a Head of Sustainability and provide for the assignment of and accountability for ESG responsibilities to senior managers at companies we control.
4. Instruct Riviera Investimentos professionals in the identification and management of ESG risks and opportunities, and provide them with appropriate support and assistance.
5. Identify ESG risks and opportunities prior to the acquisition of companies entrusted to our care and control, and manage ESG risks and opportunities following acquisition.
6. Establish appropriate ESG policies and practices, including practices to measure ESG performance, for companies entrusted to our care and control comparable to standards adopted Riviera Investimentos , and to encourage the disclosure of ESG matters for public review.
7. Our Head of Sustainability will review the policy's effectiveness and implementation on a regular basis, and will report relevant findings, progress and recommendations to our Board.
8. Distribute this policy and related ESG information to all Riviera Investimento's employees
