RI TRANSPARENCY REPORT

2014/15

Sul América Investimentos DTVM S.A

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

---------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Although we have funds with investment restrictions such as not invest in some sectors like armory or tobacco, our main philosophy is to engage the invested companies in improving the ESG aspects. For instance, we participated, with other minority investors, in an initiative to approve the creation of the fiscal committee by the shareholder resolution, improving the company governance.

We consider ESG issues in our investment selection and investment decision: The business case presentations incorporate these aspects. The analysts verify if the invested companies have sustainability reports, such as Global Reporting Initiative - GRI.

We participate, since 2011, in a working group which its goal is to engage companies to have a better disclosure on ESG issues and encourage them to use the GRI reports. The group met and had conference calls with listed companies in Bovespa to induce them to adopt or improve ESG aspects and have more transparency.

In our brokerage firm selection and evaluation, we consider the responsible investment issue, giving them grades in this regard.

We also consider the ESG aspects in the evaluation and the scorecard of some employees.

At the end of 2014 we have started a process of reviewing our RI policy in order to adapt it to the Central Bank ESG policy that will be in placement by the end of June 2015 and to establish our action plan for the next 5 years. The action plan incorporates our ESG risk management process as well as how the assessment will be implemented.

LEI 03.2

Describe your primary reasons for choosing a particular ESG incorporation strategy.

The screening strategy allows us to exclude from our investable space the sectors/companies performing activities which are not suitable to ESG best practices, eg tobacco, armory and slave labor. In addition, the systematic and explicit inclusion of environmental, social and governance factors into our investment process allows us to widen the scope of traditional financial analysis. We also use a swot analysis concerning ESG issues for each investment case.

LEI 03.3

Where assets are managed using a combination of ESG incorporation strategies, briefly describe how these combinations are used. [Optional]

Information about ESG issues are used in combination with quantitative and qualitative information collected during the investment process, and will be used for financial modeling and support the pro and cons arguments to investment cases. For example, we exclude BDRs from our investment strategy, since it is not covered by brazilian legislation what weakens corporate governance aspects.

ESG incorporation in actively managed fixed income

Fixed Income - Corporate

Implementation processes

FI 04	Mandatory	Gateway/Core Assessed	PRI 1
-------	-----------	-----------------------	-------

FI 04.1

Indicate (1) which ESG incorporation strategy and/or combination of strategies you apply to your actively managed corporate fixed income investments; and, (2) the breakdown of your actively managed corporate fixed income investments by incorporation strategy or combination of strategies.

ESG incorporation strategy (select all that apply)

- Screening alone (i.e. not combined with any other strategies)
- Thematic alone (i.e. not combined with any other strategies)
- Integration alone (i.e. not combined with any other strategies)
- Screening + Integration strategies

Percentage of active corporate fixed income to which the strategy is applied (estimate +/- 10%)	%
	100

- Thematic + integration strategies
- Screening + thematic strategies
- All three strategies combined
- No incorporation strategies applied

Total actively managed fixed income - corporate

100%

FI 04.2

Describe your primary reasons for choosing a particular incorporation strategy.

In Brazil, we have a limited number of issuance per year. Because of that, we analyse the companies or financial institutions case by case. In our reports we have incorporated the ESG analysis in order to mitigate the risk related to those aspects.

(A) Implementation: Screening

FI 06	Mandatory	Descriptive	PRI 1
-------	-----------	-------------	-------

FI 06.1

Indicate and describe the type of screening you apply to your internally managed active corporate fixed income investments.

Type of screening

- Negative/exclusionary screening

Screened by

- Product
- Activity
- Sector
- Country/geographic region
- Environmental and social practices and performance
- Corporate governance

	Description
--	-------------

	We do not have exposure in sectors such as tobacco, armory, gambling because we think that these sectors are more vulnerable in ESG practices. If we have concerning any investment with ESG risk, we discuss in our committee and refuse.
--	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

- Positive/best-in-class screening
- Norms-based screening

FI 06.2

Describe how the screening criteria are established, how often the criteria are reviewed and how you notify clients and/or beneficiaries when changes are made.

We adopt the same screening criteria for all investment cases. We take some information about issuer through meetings, site. We have this criteria since 2012 and we may change it when we think necessary.

FI 07

Mandatory
