RI TRANSPARENCY REPORT

2014/15

Triple Jump

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Triple Jump BV is a private company with limited liability, organized and existing under the laws of the Netherlands. Triple Jump is a regulated investment firm under the supervision of The Dutch Authority for the Financial Markets and the Dutch Central Bank. The company has four shareholders: ASN Bank, Oxfam Novib, NOTS and the management of Triple Jump.

Mission

Our mission is to promote financial inclusion for micro, small and medium enterprises in developing countries. We offer a unique financial opportunity to our investees and end-clients, which we believe results in positive social outcomes that would not otherwise occur.

Our vision is an inclusive and innovative financial sector that contributes to social impact beyond financial returns. We work with financial service providers that reach out to micro, small and medium enterprises. By providing debt financing, equity capital, knowledge transfer and capacity development programmes, we assist these providers in realizing their full potential.

Activities

Triple Jump structures, manages and advises funds that aim to invest responsibly in financial service providers and funds that operate in developing countries. Our clients are social investors ranging from international development organizations to the Dutch State, insurance companies and banks. Our investees are both financial service providers and funds serving our end-clients: micro and small& medium sized enterprises. Each fund entrusted to us has a specific target group and different risk and return objectives. This mix of funds allows Triple Jump to serve financial service providers, mainly microfinance institutions, throughout their entire life cycle. Our portfolio companies range from NGOs receiving their first non-subsidized loans, to regulated banks, which intermediate savings and serve hundreds of thousands of borrowers. In addition, Triple Jump invests in Intermediary Funds that invest in small and medium sized companies.

Our Advisory Services team contributes to a social and solid sector and helps financial service providers to further the finance frontier by providing capacity building services on a cost-sharing basis. Our services areas focus on product/channel development (mobile banking, upscaling), risk management (including IT/MIS, Internal Audit) and Social Performance Management (making impact assessment affordable). The team also provides Seed Capital& Business Development services to Intermediary Funds and the SME's they serve.

Regulation

Triple Jump is a regulated investment firm under the supervision of the Dutch Authority for the Financial Markets and the Dutch Central Bank. Triple Jump's business operations must satisfy the obligations under the Market in Financial Instruments Directive (MiFID)

Governance

As a fund management company, Triple Jump is committed to complying with the Principles of Fund Governance established by the Dutch Fund Association (DUFAS). The objective of this code is to provide additional guidelines to guarantee investors that fund managers operate in an ethical manner, with due care and in the best interest of the investors. The Supervisory Board assesses compliance based on a number of factors, including the report issued by the Compliance Officer, which notes, among other things, whether any conflicts of interest have been identified.

In accordance with the principles of good governance, Triple Jump is governed by a Board of Directors, which acts as an independent supervisory body. The Board Members are appointed by the Shareholders, and each Board Member has a strong expertise in the areas of development, finance and/or entrepreneurship. The Board Members are strong advocates of Triple Jump's double objective of social and financial returns.

Organization

Triple Jump is organized with a regional focus and managed by two managing directors who report to the Supervisory Board. The Debt Department manages the funds that are directly invested in financial service providers. The Manager of that department oversees the activities of the Field Regional Managers and the investment officers, who are each responsible for a specific area in the region. Head of Equity is responsible for the equity investments, the Legal Director for the activities of the Legal Officers and Head of Finance & Control for the Finance & Control Department. Each of them reports to the Managing Board on a frequent basis. All administrative and support functions, including HR, PR, ICT and Investment Strategy & Risk, remain centralized and are located at the head office in Amsterdam.

As part of the Legal Department, the Compliance Officer fulfils the compliance function in an independent and effective manner. To this end the compliance officer has the necessary authority, resources, expertise and access to all required information in order to be able to carry out his/her tasks independently and effectively. The Head of Finance & Control fulfils the operational risk management and internal audit functions.

Code of Ethics and Professional Standards

As a socially-conscious investment fund manager, Triple Jump is committed to working with its clients according to the highest possible standards of ethics and professional behavior. In other words, we believe that ethical behavior is good for our reputation and therefore good for our business. Our integrity is important to gain confidence and trust. Trust is the foundation upon which all business transactions are conducted. For this reason, Triple Jump has adopted a Code of Ethics and Professional Standards, which guide the work of our staff and management in all of its operations, on a daily basis. The Code is based on CFA® Institute Code of Ethics and Standards of Professional Conduct, which is widely regarded as the global standard in the investment management industry.

Fund Management

Each of the funds managed by Triple Jump has an Investment Committee. The role of the Investment Committees is to ensure that each investment fits with the fund's mandate in terms of return, risk and social performance.

IFD 08.2

Indicate which of the following services you support:

Voluntary savings products

Provide examples of how and what you support.

We realize the importance for investees to diversify their funding sources on the one hand and to offer a range of adapted services to their clients on the other, and we encourage our partners to do so. Through technical assistance projects and grants, Triple Jump supports institutions in better understanding the various needs of their clients and in developing innovative products including savings. We also support financial institutions with technical assistance for their transformation into deposit taking institutions and to strengthen their asset and liability management capabilities, a prerequisite for successful savings intermediation.

Indicate if you gather data regarding the percentage of financial service providers in your portfolio that are offering such a service.

Other financial services, specify

Branchless banking / mobile banking

Provide examples of how and what you support.

One of the specialised expertise of our Technical Assistance team is the support in the development of branchless and mobile banking services in order to expand and improve access to financial services to the underserved.

In 2013 Triple Jump launched the Triple Jump Innovation Fund which provides financing and technical assistance to institutions working to expand the scope and scale of microfinance. Besides focusing on rural and geographic areas with lesser developed microfinance sectors, the fund focuses on financing initiatives providing innovative financial products and services. These might include, among others, services such as education, housing, water and sanitation, healthcare, mobile banking and dedicated SME finance, as well as financial services linked to capacity building programs.

Indicate if you gather data regarding the percentage of financial service providers in your portfolio that are offering such a service.

Our social performance assessment tool was first developed in 2008 and regularly updated to incorporate various industry standards (USSPM, IRIS, etc.) The tool is used as an investment decision tool and scores investees on six dimensions of social performance (Mission/Governance/Management, Targeting & Outreach, Client Service, Client Protection, Human Resources and Environment). The tool is designed to foster a dialogue between TJ and the investee's management on social performance management. The score is updated on a yearly basis. A selected number of quantitative social performance indicators are monitored on a monthly or quarterly basis.

Triple Jump developed the Executive Compensation Questionnaire to standardize our assessment of CEO salaries. As part of every appraisal for a new financing, Triple Jump requires the MFI to be transparent on the compensation of its CEO. The questionnaire is then used for all MFIs that report a CEO compensation package above a certain threshold. Six questions help frame the discussion in our investment committee in order to decide if a compensation is justified or not. In all cases our analysis is focused on determining the appropriate balance between social and financial returns.
