# RI TRANSPARENCY REPORT

## 2014/15

TOBAM

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

## Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

TOBAM's 'Sustainable Way' relies on two pillars: our sustainable responsible investment approach and our internal corporate engagement and actions.

TOBAM produces several documents to document its corporate approach to sustainability:

- Compliance statement to the UK Stewardship Code
- Our Voting Policy
- Sustainability report updated annually.

TOBAM also provides with a powerpoint presentation for clients presenting TOBAM's 'Sustainable Way' as well as SRI capabilities.

Potential conflicts of interest in the investment process are addressed within the Conflict of Interest Policy described in the Compliance manual.

The company maintains an organizational structure that helps manage conflicts of interests:

- Segregation of duties: reporting lines are separate to prevent or limit interest conflicts between research and fund management.
- Remuneration is designed to avoid incentives which could promote conflicts between its employees and its clients, to the extent reasonably possible.
- Soft dollars are not permissible.
- Where TOBAM funds will invest in other TOBAM funds, there will be neither subscription/redemption fees.
- Aggregation of orders will only be permitted where it is unlikely that the aggregation of orders and transactions will work overall to the disadvantage of any client, and allocated fairly subject to the company's allocation policy

The AFG, our professional organization in France, represents TOBAM and other associated asset managers in discussions with the government and the French regulator. This includes in particular discussions about ESG subjects. For example, the AFG discussed the French law and its application decree named "Grenelle de l'environnement". This law made compulsory the public disclosure of Responsible Investment policy of asset managers as of the first of July 2012.

TOBAM is also engaged with a group of investors to support the Corporate Sustainability Reporting Coalition and the Sustainable Stock Exchange Project.

TOBAM's president publicly promoted TOBAM's sustainable way, from the adoption of the UN PRI, to its carbon compensation program or human rights compensation program, as well as its SRI approach in its open ended

funds. TOBAM has in 2014 won a special award for its innovative SRI& CSR approach and this has been an opportunity to promote our sustainable way in the industry.

LEI 03.2

Describe your primary reasons for choosing a particular ESG incorporation strategy.

ESG incorporation is applied exclusively through screening as the investment process is purely quantitative and thus does not allow for either ESG Integration or Thematic incorporation as well.

### (A) Implementation: Screening

LEI 06	Mandatory	Descriptive	PRI 1
--------	-----------	-------------	-------

LEI 06.1

Indicate and describe the type of screening you apply to your internally managed active listed equities.

Type of screening

- Negative/exclusionary screening

**Screened by**

- Product
- Activity
- Sector
- Country/geographic region
- Environmental and social practices and performance
- Corporate governance

Description
-------------

The negative screening filter consists of excluding those companies declared as non-ethical by the Ministry of Finance of Norway as well as AP Fonden (Swedish Public Pension funds) from their investment universes. In specific mandates, we also apply clients' specific requirements in terms of exclusion list, or sector exclusions.

- Positive/best-in-class screening
- Norms-based screening

LEI 06.2	Describe how the screening criteria are established, how often the criteria are reviewed and how you notify clients and/or beneficiaries when changes are made.
----------	---

The screening criteria are defined by the Ministry of Finance of Norway and are described on their websites. Clients are not notified specifically when changes to the screen are made.

LEI 07	Mandatory	Core Assessed	PRI 1
--------	-----------	---------------	-------

LEI 07.1	Indicate which processes your organisation uses to ensure that screening is based on robust analysis.
----------	---

- Comprehensive ESG research is undertaken or sourced to determine companies' activities and products.
- Companies are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- External research and data used to identify companies to be excluded/included is subject to internal audit by ESG/RI staff, the internal audit function or similar
- Company ESG information/ratings are updated regularly to ensure that portfolio holdings comply with fund policies
- A committee or body with representatives independent of the individuals who conduct company research reviews some or all screening decisions
- A periodic review of the quality of the research undertaken or provided is carried out
- Other, specify
- None of the above

TOBAM decided to use the list of Norwegian Ministry of Finance for four reasons: i. As a globally-recognized investment institution and a founding member of the PRI, Norges Bank is invested in research geared toward active ownership based on the principles within the PRI and Global Compact. Their approach is both transparent and readily accessible. Sustainability Report June 2013- June 2014 p.7 ii. The exclusion list published by Norges Bank is aligned with the UN PRI, without seeking to impart a moral judgment. For example, NBIM blacklists tobacco companies but does not exclude other companies solely based on their industry. iii. Norges Bank's research approach embodies an activist dimension; dialogue with companies aims to encourage broader adoption of the principles reflected in the UN PRI and Global Compact, notably respect for human rights and the environment, and opposition to all forms of corruption. iv. TOBAM is convinced that due consideration for good corporate governance and environmental and social issues into more aspects of investment management can have a lasting positive impact on the global investment industry. By endorsing Norges Bank's initiative, TOBAM assumes a small part of this responsibility and strives to make a contribution, albeit a small one, to a global effort.
