RI TRANSPARENCY REPORT

2014/15

UFCW International Union Pension Plan for Employees

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2014-15 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

LEA 03.2

Describe how you identify and prioritise engagements.

Our engagements - whether carried out independently or in collaboration with other stakeholders - take place almost exclusively in the food retail, food processing, and non-food retail industries, because these are the industries in which our organization is active and knowledgeable. To set our engagement priorities, staff meets regularly with a trustee responsible for engagements. These meetings are informed by staff research on particular themes where our organization has expertise, including labor relations, employee engagement, and human capital management. Priority is given to engagements where our organization's beneficiaries are directly impacted, followed by those where they are indirectly impacted, and finally to those where we have a shared interest with other investors, such as additional transparency. A set of engagements is driven by developments, such as merger and acquisition activity or controversies.

LEA 04.3

Describe how you monitor and evaluate the progress of your engagement activities.

For each engagement, staff and a trustee responsible for our organization's engagement activities set an objective for the corporate behavior we hope to encourage, such as a meeting between management and investors, disclosure of a particular metric, or adoption of a policy. We plan a set of activities aimed at achieving the objective over the course of a given period. As we carry out those activities, staff continually assess their individual effectiveness. Periodically, we meet to evaluate the activities as a whole and measure progress toward the objective based on responses from the company engaged. Decisions to escalate or terminate an engagement are made based on many factors, including company response, internal capacity, and the interests of collaborating parties. We are working on a process for capturing lessons from engagements and integrating them into our work.
