RI TRANSPARENCY REPORT

2013/14

Auda International L.P.

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2013-14 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted. This results in some Principles not being explicitly highlighted. For instance, Principle 1 and 2 cannot be implemented without implementing Principle 3, but there are cases when Principle 3 is not explicitly highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

 No

OA 01.3 Provide a brief description of the key elements of your responsible investment policy or, if you do not have a policy, of your overall approach to responsible investment. [Optional]

Auda is in the process of setting up an internal "ESG-project team" consisting of 5 team members, to be headed by the European Head of Private Equity, and Auda's compliance officer, who will be responsible for the development, implementation and monitoring of the ESG principles within Auda and within the investment due diligence and decision making process.

Auda plans to develop several tools which could be used during the due diligence process in order to analyze the ESG policy of the GPs. The result of the analysis would be included in the written Investment Proposal to be approved by the Auda Investment Committee. Auda will proactively monitor the progression of ESG policies and have regular dialogue with the GPs concerning ESG practices.

Auda believes that GPs can enhance long-term performance through an understanding of ESG issues and integration of ESG standards in the value creation process.

On behalf of our investors we therefore see it as our responsibility to collaborate with our GPs to encourage and implement ESG best practices with their underlying portfolio companies.

-------	-----------	---------------	---------

OA 04.1 Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

Yes

OA 04.2 Describe your policy on managing potential conflicts of interest in the investment process. [Optional]

Because Auda is dedicated solely to investing in alternative investment strategies, we are generally able to avoid conflicts of interest inherent in firms that operate several financial services business lines. However, Auda does still confront potential conflicts of interest which may impact investors in its funds. Such conflicts may arise from our management of Auda-sponsored or advised funds from certain risks related to performance allocations (i.e., carried interest); and from the presence of a diverse limited partner group in the fund. While Auda may not have a blanket conflicts of interest policy in the investment process, each fund's private placement memorandum contains detailed information about these and other potential conflicts of interest.
