RI TRANSPARENCY REPORT

2013/14

Bradesco Asset Management

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2013-14 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted. This results in some Principles not being explicitly highlighted. For instance, Principle 1 and 2 cannot be implemented without implementing Principle 3, but there are cases when Principle 3 is not explicitly highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

 No

OA 01.3 Provide a brief description of the key elements of your responsible investment policy or, if you do not have a policy, of your overall approach to responsible investment. [Optional]

In 2013, Bradesco Asset Management conducted an internal review for developing a strategy and plan of action for responsible investment, based on the UN Principles of Responsible Investment (PRI). These actions include standardizing ESG issues for making investment decisions for all asset classes (corporate fixed income, equities, funds of funds and structured products), engagement with companies and their investment chain (suppliers, partners and customers) and increased institutional participation. All methods and procedures will be developed and implemented in 2014, and incorporated into the BRAM handbook and main documents of the organization, which guides the activities of management. This manual follows the ISO9000 certificate and is subjected to internal and external audit.

OA 03.2 Comment on any variations or exceptions in the coverage of your responsible investment policy. [Optional]

For now our voting policy/ policies for screening/exclusion apply only to funds that follow the ESG and governance funds criteria specifically, which have screening/exclusion policies. Nowadays we don't have ESG issues integrated to our proxy voting policy for all the other ones, but we have a project that will include ESG issues to our proxy voting policy, but this is still in phase of tests and nowadays it's not integrated to it.

OA 04 **Mandatory** **Core Assessed** **General**

OA 04.1 Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

OA 04.2 Describe your policy on managing potential conflicts of interest in the investment process. [Optional]

The BRAM manual details structures and the compliance policy of the Chinese wall (http://www.bcb.gov.br/pre/normativos/res/1997/pdf/res_2451_v1_O.pdf) in line with the code of conduct of the financial institution as a whole. The compliance of the manager to his fiduciary duty is translated into good management practices, determines the image of the institution to the market and its long-term success. Being part of a retail bank, we highlight the practices of Chinese wall, which results in complete and absolute separation between the resources and interests of the administrator on the one hand, and the resources and interests of investors, on the other.

LEI 03.2

Describe your primary reasons for choosing a particular ESG incorporation strategy.

Funds with ESG criteria in their regulation (for example, Fundos ISE e Fundos Governança) adopt screening and exclusion strategies based on the ESG analysis for the companies invested as it happens for other actively managed funds. ESG issues are integrated into the process of analysis and management of assets, using the methodology developed in 2013, in the implementation phase.

LEI 03.3	If assets are managed using a combination of ESG incorporation strategies, describe briefly how these are used in combination. [Optional]

---------------	------------------	--------------------	--------------

LEI 06.1	Indicate and describe the type of screening you apply to your internally managed active listed equities.
-----------------	--

Type of screening

Negative/exclusionary screening

Screened by

- Product
- Activity
- Sector
- Country/geographic region
- Environmental and social practices and performance
- Corporate governance

Description

In understanding the relevance of ESG issues with regard to the long-term performance of assets and, in line with market best practices and the philosophy of organizations, in 2013, Bradesco developed a strategy and plan of action based on the six principles of responsible investment. Our actions include the development of methodologies for the analysis and management of all asset classes. The methodology is being tested and applies to listed stocks being incorporated into investment decisions in the case of actively managed funds.

- Positive/best-in-class screening
- Norms-based screening

LEI 06.2	Describe how the screening criteria are established, how often the criteria are reviewed and how you notify clients and/or beneficiaries when changes are made.
-----------------	---

For products that have screening as part of the fund rules (fundos ISE e fundos Governança) the investment universe is limited to companies that follow ESG criteria or different Levels of Corporate Governance (Nível II, Novo Mercado).

LEI 07	Mandatory	Core Assessed	PRI 1
---------------	------------------	----------------------	--------------

LEI 07.1	Indicate which processes your organisation uses to ensure that screening is based on robust analysis.
-----------------	---

- Comprehensive ESG research is undertaken or sourced to determine companies' activities and products.
- Companies are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- External research and data used to identify companies to be excluded/included is subject to internal audit by ESG/RI staff, the internal audit function or similar
- Company ESG information/ratings are updated regularly to ensure that portfolio holdings comply with fund policies
- A committee or body with representatives independent of the individuals who conduct company research reviews some or all screening decisions
- A periodic review of the quality of the research undertaken or provided is carried out
- Other, specify
- None of the above

(C) Implementation: Integration of ESG issues

ESG incorporation in actively managed fixed income

Fixed Income - Corporate

Implementation processes

FI 04	Mandatory	Gateway/Core Assessed	PRI 1
-------	-----------	-----------------------	-------

FI 04.1

Indicate (1) which ESG incorporation strategy and/or combination of strategies you apply to your actively managed corporate fixed income investments; and, (2) the breakdown of your actively managed corporate fixed income investments by incorporation strategy or combination of strategies.

ESG incorporation strategy (select all that apply)

- Screening alone (i.e. not combined with any other strategies)
- Thematic alone (i.e. not combined with any other strategies)
- Integration alone (i.e. not combined with any other strategies)

Percentage of active corporate fixed income to which the strategy is applied (estimate +/- 10%)	<div style="text-align: center;">100%</div>
---	---

- Screening + Integration strategies
- Thematic + integration strategies
- Screening + thematic strategies
- All three strategies combined
- No incorporation strategies applied

Total actively managed fixed income - corporate

100%

FI 04.2

Describe your primary reasons for choosing a particular incorporation strategy.

The integration of this strategy will align it with the actions taken for other asset classes, creating shared information about listed companies (for example, companies analysed as equities). This strategy allows greater engagement and participation with firms and results in best practices by companies in which we invest.
