

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2013-14 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted. This results in some Principles not being explicitly highlighted. For instance, Principle 1 and 2 cannot be implemented without implementing Principle 3, but there are cases when Principle 3 is not explicitly highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

----------------	---

Cometa has some Engagemet Guidelines about the ESG issues, adopted in april 2012. The objective is supporting a more sustainable management style in invested companies, mitigating the negative impact from their activity and benefitting from sound long-terms financial performances.

According to the Engagement Guidelines, the pension fund submits the financial portfolio, regardless of the asset manager, to an annual review, in order to identify any company involved in serious social or environmental controversies, such as the human rights violations, the violation of workers' rights, huge environmental incidents or dameges, violation of business ethics (corruption, conflicts of interest, ...), violation of the rights of final consumers (lack of transparency in communication about products and services , insufficient security products..).

The portfolio analysis will be carried out by an external consultant chosen by Cometa as a provider of ESG information required for the engagement activities. The results of the analysis (list of issuers involved in serious disputes slected by the ESG adviros) shall be submitted to the Finance Committee who in turn will present to the Board of Directors, suggesting the possible decisions to be taken.

The selected companies will receive solicitations to implement remedial measures through letters or company meetings.

The progress of the relationship with the parent companies and the quality of the results achieved dall'engagement will be brought to the agenda of all meetings of the Finance Committee. The Board of Directors will receive regular information and deliberate on these issues whenever necessary.

The Engagement Guidelines don't affect in any way the activities of the asset managers, because the portfolio analysis- is realized only after the investment phase (ex post).However, the Finance Committee , under the BoDs approval , may inform the asset managers about the results of the analysis, in order to implement a dialogue about non-financial aspects of the issuers invested.

This policy may be revised at any time by resolution of the Board of Directors.

LEA 05.2	Describe how you identify and prioritise collaborative engagements.
-----------------	---

Cometa strongly believes in the benefits of engaging collaboratively for the strength that the investors pool can achieve in the dialogue with companies.

The pension fund periodically monitors the Clearinghouse Platform supported by the PRI to investigate if there are interesting collaborative engagement proposals to join. Priority is given to engagements related to companies that:

- are held in the investment portfolio
- are involved in serious controversies according to the Guidelines of the pension fund,
- are responsive and available to collaborate and improve disclosure on ESG themes.

As experienced, Cometa plays a basic role, signing the initiative and attending conference as a participant.
