RI TRANSPARENCY REPORT

2013/14

Christian Super

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2013-14 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted. This results in some Principles not being explicitly highlighted. For instance, Principle 1 and 2 cannot be implemented without implementing Principle 3, but there are cases when Principle 3 is not explicitly highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

PRI disclaimer

This document is based on information reported by signatories and responses have not been independently audited by the PRI Secretariat, PRI working groups, or any other third party. OA 01.3 Provide a brief description of the key elements of your responsible investment policy or, if you do not have a policy, of your overall approach to responsible investment. [Optional]

Overall responsibility for implementation of the Fund's RI and ESG strategies lies with the board. The board has appointed Ethics and Investment committees which both fulfill oversight functions. Additionally, the Fund has engaged internal investment professionals to conduct research into ESG issues. The Fund maintains a wide range of Ethical Investment Policies on specific issues (such as Alcohol, Gambling, Uranium, Water Stewardship, etc). There are roughly 20 such policies. In addition the Fund maintains an overarching Ethical Investment Policy outlining our basic framework for implementing Ethical, Responsible and ESG criteria across all the Fund's investments. The policies are implemented through negative and positive screening, ESG integration and themed responsible investment opportunities. The Fund works closely with its investment managers to ensure that its ethical and responsible strategies are implemented.

OA 04.2	Describe your policy on managing potential conflicts of interest in the investment process. [Optional]
----------------	--

In accordance with APRA Prudential Standard SPS 521 - Conflicts of Interest, as a Registrable Superannuation Entities, Christian Super has a board approved conflicts management framework. We consider effective management of conflicts can be achieved using a number of mechanisms. These are listed below in the order that reflects Christian Super's preferred method for dealing with such matters:

1. Avoiding conflicts of interest;
2. Controlling conflicts of interest; or
3. Disclosing conflicts of interest.

Accordingly responsible officers or employee must not engage in any situation, arrangement or transaction which gives rise to a conflict of interest, without the approval, either through provisions contained within the Conflicts Management Policy or express approval.

A responsible officer may have a conflict of interest or an interest in a related party transaction if, and only if, the Board, having been notified by the responsible officer in accordance with this framework's disclosure requirements, passes a resolution permitting the responsible officer to have that conflict of interest or an interest in that related party transaction.

Positive/best-in-class screening

Norms-based screening

FI 06.2

Describe how the screening criteria are established, how often the criteria are reviewed and how you notify clients and/or beneficiaries when changes are made.

As a profit-for-members fund, we represent the values of our members with a Christian ethical foundation, and as such a universal screening criteria for all investments is developed from there. The criteria is reviewed on a monthly basis, and ad hoc, as critical issues arise

FI 07.1

Indicate which processes your organisation uses to ensure that screening in corporate fixed income is based on robust analysis.

- Comprehensive research is undertaken or sourced to determine issuers' ESG performance
- Issuers are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- External research and data used to identify issuers to be excluded/included is subject to internal audit by ESG/RI staff, the internal audit function or similar
- Information on ESG issues and/or ratings is updated regularly to ensure that portfolio holdings comply with fund policies
- A committee or body with representatives independent of the individuals who conduct ESG research reviews some or all screening decisions
- A periodic review of the quality of the research undertaken or provided is carried out
- Other, specify
- None of the above
