RI TRANSPARENCY REPORT

2013/14

Investindustrial

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2013-14 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted. This results in some Principles not being explicitly highlighted. For instance, Principle 1 and 2 cannot be implemented without implementing Principle 3, but there are cases when Principle 3 is not explicitly highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

PRI disclaimer

OA 01.3 Provide a brief description of the key elements of your responsible investment policy or, if you do not have a policy, of your overall approach to responsible investment. [Optional]

For Investindustrial, responsible investing means integrating environmental, social and governance ("ESG") considerations into the investment process. Investindustrial believes that making sustainable investments and supporting its investee companies in adopting principles that do not harm the environment or the society, is an important responsibility for any long-term owner of assets. The responsible investment policy is designed to both maximize shareholder value and reduce the risk that Investindustrial invests in a company with unacceptable corporate responsibility values. Investindustrial's policy for responsible investing aims to incorporate ESG principles both into the pre-investment and post-investment stages.

Environmental, social and governance factors will be an integral part of the investment analysis and decision-making processes before making any investment. In developing these activities the investment companies and the advisory teams will be expected to liaise with the internal risk management, monitoring team, sustainability officer, legal counsel and external professionals (consultants, lawyers, etc.). During the pre-investment phase, the advisory team will highlight in both the preliminary investment recommendation and final investment recommendation memoranda that the investment is compliant with Investindustrial's Responsible Investing Policy. Specifically Investindustrial has developed formal guidelines to exclude or limitate investments in certain sectors. Sectors have been classified as either "Excluded", where Investindustrial rules out making investments in companies active in that sector, or "Sensitive" where Investindustrial intends to minimise its exposure and will apply more stringent requirements prior to the making of investments and during the investment holding period.
