

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2013-14 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted. This results in some Principles not being explicitly highlighted. For instance, Principle 1 and 2 cannot be implemented without implementing Principle 3, but there are cases when Principle 3 is not explicitly highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Universal Bank with regional focuses

Landesbank Baden-Württemberg (LBBW) is an universal bank with regional focuses.

With total assets of around EUR 336 billion (as of 31 December 2012) and some 11,700 employees in the Group, Landesbank Baden-Württemberg (LBBW) is Germany's largest Landesbank. Its main offices are in Stuttgart, Karlsruhe, Mannheim and Mainz.

LBBW is an universal and commercial bank geared to the needs of its domestic customers. Together with the regional retail banks BW-Bank », Rheinland-Pfalz Bank » and Sachsen Bank », it offers every type of business provided by a large, modern bank in over 200 branches and offices throughout Germany. BW-Bank acts as a savings bank on behalf of LBBW in the area of Stuttgart, the state capital of Baden-Württemberg.

Since the restructuring, initiated in 2009, the business model of the LBBW Group has been based on five pillars and encompasses the business areas of corporate customers, private customers, savings banks, financial markets, and real estate financing.

Thereby, the regional retail banks BW-Bank, Rheinland-Pfalz Bank, and Sachsen Bank form an important part of LBBW. As dependent institutions with own market presence, these three strong regional pillars represent the Group's domestic business with corporate and private clients.

The deep roots of LBBW and its customer banks (BW-Bank, Rheinland-Pfalz Bank and Sachsen Bank) in their domestic markets, coupled with the associated knowledge of the market, represent the true added value that LBBW offers in relation to its competitors. Accordingly, the bank's key growth areas are in its customer business.

LBBW also supports its corporate customers and the savings banks with their international activities. Branches and representatives offices worldwide offer support with country expertise, market know-how, and financial solutions. To complement this, LBBW has German centers in Beijing, Singapore, Mexico City, Delhi, Gurgaon, and Moscow, which advise German corporate customers on market entry through its local offices and networks.

The range of services and products offered by LBBW is enhanced by subsidiaries within the Group specializing in specific business areas, such as leasing, factoring, asset management, real estate and equity funding.

Our approach to implement the PRI refers to the investment of our free, unallocated equity (see AuM OO 04.2).
