RI TRANSPARENCY REPORT

2013/14

LGT Capital Partners

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2013-14 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted. This results in some Principles not being explicitly highlighted. For instance, Principle 1 and 2 cannot be implemented without implementing Principle 3, but there are cases when Principle 3 is not explicitly highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Consideration of environmental, social and governance (ESG) issues is an integral part of LGT Capital Partners' manager due diligence process, which the firm has developed to align with the six Principles for Responsible Investment (PRI). Any investment opportunity that is ultimately recommended to the firm's investment committee for approval will have been vetted for such issues. Towards this end, our investment teams assess managers' ESG practices using a standard due diligence questionnaire, and these assessments form a key input into the discussions held by the investment committee in reaching a decision whether to invest in a fund. ESG issues identified during due diligence are subsequently tracked in the firm's investment database, and they serve a starting point for discussion with GP's during monitoring meetings.

In addition to completing our own ESG analysis, LGT CP partners with GES Investment Services and apply their guidelines to avoid exposure to companies involved in the manufacture, storage or transportation of controversial weapons, such as land mines, cluster bombs/munitions and biological, nuclear and chemical weapons. The partnership enables LGT CP to develop portfolios that comply with international conventions on these weapons.

If you select any 'Other' option(s), specify

Our investment team carries out a detailed review of the manager's representations in an ESG questionnaire and checks them against actual practices evident in the manager's investment committee books and company monitoring sheets. Insights gained from the review of the manager's approach are documented in an assessment template, in which different aspects of practice are evaluated both quantitatively and qualitatively. Based on this, we assign managers a rating on a scale of 1 to 4, where 1 indicates excellence and 4 indicates little or no commitment to ESG practice. This output is further documented in LGT CP's investment and monitoring database, which is a central source of information on all managers that LGT CP has ever screened or evaluated.

Subsequent to investment we monitor the ESG risks of our fund investments as part of the firm's overall private equity monitoring process. Towards this end, LGT CP conducts regular monitoring calls with fund managers in order to discuss a range of issues related to the partnerships, including ESG risks. The aim is to ensure the manager's continued adherence to its own or external ESG guidelines and continued improvement of practice. Issues addressed during monitoring are logged into an ESG monitoring template in our investment monitoring database, and an overall rating is assigned to the fund.

Monitoring

SAM 12	Mandatory	Core Assessed	PRI 1-6
--------	-----------	---------------	---------

SAM 12.1	Indicate whether your organisation, and/or your investment consultant, in the dialogue and monitoring of your external manager, typically do any of the following:

Other ways ESG issues are monitored in the post-investment process, specify	<input type="checkbox"/>		
None of the above	<input type="checkbox"/>		

If you select any 'Other' option(s), specify

We document the manager's ESG practices through a due diligence questionnaire, in which the manager is asked to make representations on a wide range of aspects of their ESG practices, such as overall firm commitment to responsible investment, integration of ESG principles into its investment process, how they engage in active ownership and their reporting on ESG issues. We then carry out a detailed review of the manager's representations in the ESG questionnaire and check them against actual practices evident in the manager's investment committee books and company monitoring sheets. In this stage, we examine the manager's commitment to ESG and the sophistication of their approach to see whether they have institutionalized processes in place and whether they demonstrate a willingness or concrete plans to improve. Follow up questions may be posed to the manager if there appears to be a discrepancy between official policy and actual practice.
