# RI TRANSPARENCY REPORT

## 2013/14

Stichting Shell Pensioenfonds

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2013-14 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

## Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted. This results in some Principles not being explicitly highlighted. For instance, Principle 1 and 2 cannot be implemented without implementing Principle 3, but there are cases when Principle 3 is not explicitly highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

## PRI disclaimer

This document is based on information reported by signatories and responses have not been independently audited by the PRI Secretariat, PRI working groups, or any other third party. While this information is believed to be reliable, no representations or warranties are made as to its accuracy and no responsibility or liability can be accepted for any error or omission.

Stichting Shell Pensioenfond (SSPF) has a Responsible Investment Policy based on the UN Global Compact. SSPF has also signed up to the Principles for Responsible Investment. The fiduciary manager has employed a recognised third party service provider, Hermes EOS, to assist in the implementation of this policy. Within the policy, engagement is perceived to be the most appropriate way to influence companies to adhere to SSPF's objectives of the Responsible Investment Policy. If engagement ultimately does not work, and a company does not make sufficient progress, the company in question can be excluded from the investment universe. This can occur, for example, when companies are involved in the sale, production or distribution of cluster munitions or anti-personnel landmines, which contravene the Oslo Convention on Cluster Munitions or the Ottawa (Mine Ban) Treaty, as well as Dutch legislation (as per 1 January 2013) banning investments in companies involved in cluster munitions sale, manufacture or distribution. In case of exclusion no investments are made in these entities.

## (A) Implementation: Screening

LEI 06

LEI 06.1

Indicate and describe the type of screening you apply to your internally managed active listed equities.

### Type of screening

- Negative/exclusionary screening
- Positive/best-in-class screening
- Norms-based screening

### Screened by

- UN Global Compact Principles
- Universal Declaration of Human Rights
- International Labour Organization Conventions
- United Nations Convention Against Corruption
- OECD Guidelines for Multinational Enterprises
- Other, specify

Law or International Treaties ratified by the Dutch government.

	Description
--	-------------

We have adopted the UN Compact Principles as our responsible ownership framework for the assets. We have also signed up to the PRI as an investment management framework for giving consideration to ESG issues. The guiding principle is engagement, which is undertaken by engagement service provider Hermes EOS. Exclusion can be triggered when the engagement process has been fully exhausted, and the company in question is making insufficient progress to improve its environmental, social and governance policies. Companies can be excluded based on multiple criteria. Important criteria are non-adherence to the Law or International Treaties ratified by the Dutch government. At present, we do not invest in companies involved in the sale, production or distribution of cluster munitions or anti-personnel landmines, which contravene the Oslo Convention on Cluster Munitions or the Ottawa (Mine Ban) Treaty, as well as Dutch legislation (as per 1 January 2013) banning investments in companies involved in cluster munitions sale, manufacture or distribution.

<b>LEI 06.2</b>	Describe how the screening criteria are established, how often the criteria are reviewed and how you notify clients and/or beneficiaries when changes are made.
-----------------	---

Hermes EOS will monitor to what extent companies are demonstrating alignment with the UN compact principles. Hermes will also help us to assess companies for breaches of generally recognised responsibilities and norms under UN treaties and other behaviors which are deemed unsustainable. We evaluate the policy and impact of the monitoring, engagement and voting activities on a regular and ongoing basis.

<b>LEI 07</b>	<b>Mandatory</b>	<b>Core Assessed</b>	<b>PRI 1</b>
---------------	------------------	----------------------	--------------

<b>LEI 07.1</b>	Indicate which processes your organisation uses to ensure that screening is based on robust analysis.
-----------------	---

- Comprehensive ESG research is undertaken or sourced to determine companies' activities and products.
- Companies are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies
- External research and data used to identify companies to be excluded/included is subject to internal audit by ESG/RI staff, the internal audit function or similar
- Company ESG information/ratings are updated regularly to ensure that portfolio holdings comply with fund policies
- A committee or body with representatives independent of the individuals who conduct company research reviews some or all screening decisions
- A periodic review of the quality of the research undertaken or provided is carried out
- Other, specify
- None of the above
