RI TRANSPARENCY REPORT

2013/14

Union Bancaire Privée, UBP SA

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2013-14 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted. This results in some Principles not being explicitly highlighted. For instance, Principle 1 and 2 cannot be implemented without implementing Principle 3, but there are cases when Principle 3 is not explicitly highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

PRI disclaimer

This document is based on information reported by signatories and responses have not been independently audited by the PRI Secretariat, PRI working groups, or any other third party. While this information is believed to be reliable, no representations or warranties are made as to its accuracy and no responsibility or liability can be accepted for any error or omission.

OO 10	Mandatory	Gateway	General
--------------	------------------	----------------	----------------

OO 10.1 Select the responsible investment activities your organisation implemented, directly and/or indirectly, for listed equities in the reporting year.

- We incorporate ESG issues into investment decisions on our internally managed assets
- We address ESG incorporation, engagement and/or (proxy) voting in our external manager selection, appointment and/or monitoring processes
- We engage with companies on ESG issues via our staff, collaborations or service providers
- We cast our (proxy) votes directly or via service providers
- None of the above

OO 10.2 Indicate if your combined internally and externally managed listed equities are 10% or more of your total AUM.

- Yes, our total listed equities are 10% or more of our total AUM
- No, our total listed equities are less than 10% of our total AUM

OO 10.3

Additional information. [Optional]

UBP is a signatory of the UN Principles for Responsible Investment since March 2012. Throughout 2012 and 2013, we have been implementing a project on ESG / SRI to prepare for the necessary steps and actions to be taken and we have analysed how to integrate environmental, social and corporate governance into our investment activities. In 2012, we have teamed up with Fédérés Gestion d'Actifs (FGA) to provide a Socially responsible investment vehicle on European convertible bonds and we have launched our SRI fund "Convertibles Europe Responsable". In 2013, we have developed our Responsible Investment policy and we have evaluated and selected two external providers to help us to monitor ESG considerations into our investment analysis and decision making processes. Moreover, we have put in place a Responsible Investment Committee (RICO) in charge of ensuring proper application of the UBP RI policy, assessing the action plan and ensuring that adequate resources are allocated and we have created the role of a Responsible Investment officer, who is responsible for monitoring UBP's RI policy and reporting on RI activities.

UBP's Responsible Investment (RI) policy is in place since March 1, 2014. This policy is currently applicable for internally managed funds of the following asset classes: Global Equity, European Equity, Swiss Equity, Convertibles and Fixed Income. Effective March 1, 2014, we are implementing an on-going screening for controversies on our investable universe and we will be engaged on selected cases identified during our screening process and that appear to fail to live up to the standards included in our RI policy. To support us in the screening and engagement processes, we have selected GES, a leading global engagement manager who is also a specialist research provider. Moreover, UBP will use the voting rights attached to investment whenever possible through an industry leading third party voting service, ISS.

OO 11	Mandatory	Gateway	General
-------	-----------	---------	---------

OO 11.1 Indicate if in the reporting year you incorporated ESG issues into your investment decisions and/or your active ownership practices in the following internally managed asset classes.

- Fixed income – corporate
- Fixed income – government
- Fixed Income – other
- Private equity
- Commodities
- Hedge funds
- Cash
- Other (1)
- None of the above

Responsible investment policy

OA 01	Mandatory	Gateway/Core Assessed	General
-------	-----------	-----------------------	---------

OA 01.1 Indicate if you have a responsible investment policy.

- Yes
 No

OA 01.2 Indicate if you have other guidance documents or more specific policies related to responsible investment.

- Yes
 No

OA 01.3 Provide a brief description of the key elements of your responsible investment policy or, if you do not have a policy, of your overall approach to responsible investment. [Optional]

UBP's Responsible Investment (RI) policy is in place since March 1, 2014. The main elements covered in this policy are UBP's understanding of ESG, our philosophy (including a qualitative screening of companies we invest in, acting in the best financial interest of our clients while executing voting rights and our engagement with companies), our governance and the interpretation of ESG including screening, engagement, proxy voting in our investment processes. The policy concludes with our reporting responsibility with regards to screening, engagement and proxy voting. The policy is currently applicable for internally managed funds of the following asset classes: Global Equity, European Equity, Swiss Equity, Convertibles and Fixed Income. Across these asset classes, ESG analysis is an integral part of our investment process. We believe that companies with an appropriate management structure and the capability to manage and mitigate environmental and social risks are ultimately more likely to deliver sustainable earnings over the long term.

As of 1 January 2014, UBP 's management structure has empowered the UBP Responsible Investment Committee (RICO) to implement this policy. This Committee sets the action plan, regularly reviews and assesses those actions, ensures adequate resources are allocated and reporting duties are properly carried out. Moreover, RICO is the ultimate authority in case of disputes over this policy or its application.

Effective March 1, 2014, we are implementing an on-going screening for controversies on our investable universe and engagement on selected cases identified during our screening process and that appear to fail to live up to the standards included in our RI policy. To support us in the screening and engagement processes, we have selected GES, a leading global engagement manager who is also a specialist research provider. Moreover, UBP will use the voting rights attached to investment whenever possible through an industry leading third party voting service, ISS.

OA 02	Mandatory	Core Assessed	PRI 6
-------	-----------	---------------	-------
