RI TRANSPARENCY REPORT

2013/14

VietNam Holding Limited

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2013-14 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted. This results in some Principles not being explicitly highlighted. For instance, Principle 1 and 2 cannot be implemented without implementing Principle 3, but there are cases when Principle 3 is not explicitly highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
⚠	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

PRI disclaimer

This document is based on information reported by signatories and responses have not been independently audited by the PRI Secretariat, PRI working groups, or any other third party. Describe your primary reasons for choosing a particular ESG incorporation strategy.

The main goal of integration ESG into VNH/VNHAM's investment procedures is to (i) Create awareness of key issues on ESG; (ii) Encourage the application of international best practice; and (iii) Maintain the on-going discussion on ESG key issues improvement.

For screening strategy, we often apply with companies who (i) already made significant movement in ESG commitment and integration in their business strategy and operations such as Hau Giang Pharma JS Co, Vinamilk JC Co, PVDrilling JS Co; (ii) where VNH just started investment with small proportion in the company and will need time to build up relationships and further communications on ESG with them.

For integration strategy, we performed Director Engagement with the companies who (i) have significant ESG issues and need improvement (ii) we can give our advice or cooperate with other parties to consult the company to improve their internal control procedures and ESG-related involvement (iii) willing and open to changes and having commitment to ESG integration into their strategy and operations.

VNH has a formal Director Engagement programs with investee companies to encourage the acceptance and implementation of ESG principles and practices in companies' strategy and operations.

A Yearly Director Engagement Program is prepared and discussed in the Q3 board meetings each year.

Four weeks prior to the directors' arrival, the VNHAM investment team prepare a list of companies to be visited, matching each board member/advisor and their assigned companies with suggested topics to be discussed during the visits (the "Visits List").

Board members review /amend the proposed companies / topics if necessary and confirm their interest and availability within three days from receipt of the Visits List.

For each selected Investee company, the responsible IM send one week prior to the meeting relevant background information, including the most up-to-date report/AGM note from a reputable broker, the investment proposal/company update by the investment team, notes on the latest discussions on ESG issues and topics to be discussed on the current visit.

IM in charge prepare and distribute to the delegation a "Company Brief" before the meeting, subject to necessity and availability.

A follow up report on the Engagement with the Investee company is drafted by the IM and reviewed by the designated Director within five days after the visit.

Based on the identified issues and the results of the meeting, the IM will, if applicable, prepare an ESG Engagement Letter to be signed by the director and sent to the Investee company.

The responsible IM consider all company AGM and EGM votes as well as solicited investor opinions in accordance with VNH's Voting Policy. Final approval of the voting decision is given by the VNHAM CEO. IM include all voting activity in the briefing to the responsible Director.
